No. 8965 *Finl., dated* 4*th July* 1906.

The following order of Government is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and

was composed, at the beginning of the current year 1906, of—

14 permanent,
12 acting and
4 Probationary } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,

in addition to—

1 Assistant and
2 Sub-Assistant } Superintendents of Survey,

3 Probationary Assistant Superintendents } of Police,
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation, (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximnm of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it, (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre. The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary. 1 Assistant Secretary for duty with the Dewan; 1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.) 8 Treasury Assistant Commissioners. 1 Huzur Treasury Officer.* 2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		
		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
Total	..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem.*, so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893 ...	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	..	10
1896 ...	...	3	..	2	2	7
1897 ...	1	2	2	1	1	7
1898 ...	...	2	2	...	4	8
1899 ...	...	5	2	...	5	12
1900 ...	1	2	1	2	1	7
1901 ...	...	4	1	3	1	9
1902 ...	2	6	2	2	1	13
1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.

1 General and Revenue Secretary.

1 Muzrai Secretary (until this appointment is abolished).

1 Deputy Secretary.

3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore And, as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 18 places against 63 places reserved for purely local men

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners, District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary *; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(a) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(b) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University : provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others : provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation ;

2ndly, a departmental service examination according to rules in force for the time being ;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule :—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. (1) The grade of Assistant Commissioners of the new Schedule B shall be recruited, soon after the results of each Civil Service Examination are known, by the special selection of the requisite number of persons, according to vacancies, (which on the average will not exceed seven at present) in the manner described in the second clause of Rule II; provided that ordinarily no person shall be selected on family or other considerations, unless he has passed the B.A. Degree of an Indian or other University.

(2) Nothing in clause (1) of this Rule is intended to prevent temporary promotions to the grade of Assistant Commissioner of the new Schedule B from subordinate grades, in order to fill existing vacancies; but an officer so promoted shall not, merely by reason of such promotion, be entitled to confirmation when permanent appointments are made under clause (1).

(3) The question of including in the new Schedule B, such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor, is reserved for separate orders.

X. The provisions of Rule VII in regard to the period of probation and the examinations to be passed shall be applicable also to those admitted to the Civil Service under Rule IX; provided that a recruit taken from the subordinate grades will be confirmed as soon as he fully qualifies himself by passing the prescribed examinations, irrespective of his putting in the full period of probation of two years, and that his initial pay in the grade of Assistant Commissioner, (new) Schedule B, shall be at least Rs. 50 more than the pay he was last permanently drawing in the subordinate grades.

XI. On becoming qualified for confirmation as above, a Probationary Assistant Commissioner of the new Schedule B will be appointed an Assistant Commissioner of the 5th class on Rs. 250 in that Schedule, and afterwards rise according the scale given below:

To Assistant Commissioner, 4th class, on Rs. 300.	After three years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After three years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After three years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After three years' approved service in the 2nd class.

XII. An Assistant Commissioner of either Schedule who has put in at least two years in the first class of his grade, shall, if found fit, and if vacancies exist, be eligible for promotion to the grade of Senior Assistant Commissioner, carrying a pay of Rs. 500 rising by annual increments of Rs. 50 to Rs. 600. There shall be eight places in all in the last mentioned grade.

XIII. Every officer recruited by competition or by special selection under the rules shall, unless he has already received such training, be trained for not less than six months in the Survey Department and not less than six months in the Accounts Department; and every officer recruited by competition shall also be trained in the Judicial Department as a Munsiff or a Sub-Judge for not less than one year in the aggregate.

Appointments of Under and Assistant Secretaries in the General and Revenue Secretariat, Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Divisional Officers, Assistant Superintendents of Survey, Assistant Comptrollers and other appointments of equal rank in the said Departments, shall be filled by officers qualified by aptitude and training from the grade of Assistant Commissioners without distinction of Schedules. Such officers will draw the pay proper to the class in which they happen to be, from time to time, *plus* any special or local allowance attached to the appointment which they fill.

XIV. (1) Subject to any alterations which may, from time to time, be sanctioned by His Highness the Maharaja, the scale of appointments of Assistant Commissioners in the following Departments shall be as specified against each :—

The following order of Governnent is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required ;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and
3 Survey Assistants,

was composed, at the beginning of the current year 1906, of—

5 Senior Assistant, and
7 Assistant Commissioners } of Schedule A,
9 Assistant Commissioners of Schedule B by competition,
6 Assistant Commissioners of Schedule B by nomination,
14 permanent,
12 acting and } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,
4 Probationary

in addition to—

1 Special Assistant and
1 Assistant and } Superintendents of Survey,

8 Superintendents and Assistant Superintendents, and
3 Probationary Assistant Superintendents } of Police,
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximnm of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians Judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary.
	1 Assistant Secretary for duty with the Dewan.
	1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.)
	8 Treasury Assistant Commissioners.
	1 Huzur Treasury Officer.*
	2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
Total	..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem*, so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for, in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	..	10
1896 ...	...	3	...	2	2	7
1897 ...	1	2	2	1	1	7
1898 ...	...	2	2	...	4	8
1899 ...	...	5	2	...	5	12
1900 ...	1	2	1	2	1	7
1901 ...	...	4	1	3	1	9
1902 ...	2	6	2	2	1	13
1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.
1 General and Revenue Secretary.
1 Muzrai Secretary (until this appointment is abolished).
1 Deputy Secretary.
3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore. And as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 18 places against 63 places reserved for purely local men.

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners. District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary *; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University : provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official Gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others : provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation ;

2ndly, a departmental service examination according to rules in force for the time being ;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule :—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. (1). The grade of Assistant Commissioners of the new Schedule B shall be recruited, soon after the results of each Civil Service Examination are known, by the special selection of the requisite number of persons, according to vacancies, (which on the average will not exceed seven at present) in the manner described in the second clause of Rule II; provided that ordinarily no person shall be selected on family or other considerations, unless he has passed the B.A. Degree of an Indian or other University.

(2) Nothing in clause (1) of this Rule is intended to prevent temporary promotions to the grade of Assistant Commissioner of the new Schedule B from subordinate grades, in order to fill existing vacancies; but an officer so promoted shall not, merely by reason of such promotion, be entitled to confirmation when permanent appointments are made under clause (1).

(3) The question of including in the new Schedule B, such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor, is reserved for separate orders.

X. The provisions of Rule VII in regard to the period of probation and the examinations to be passed shall be applicable also to those admitted to the Civil Service under Rule IX; provided that a recruit taken from the subordinate grades will be confirmed as soon as he fully qualifies himself by passing the prescribed examinations, irrespective of his putting in the full period of probation of two years, and that his initial pay in the grade of Assistant Commissioner, (new) Schedule B, shall be at least Rs. 50 more than the pay he was last permanently drawing in the subordinate grades.

XI. On becoming qualified for confirmation as above, a Probationary Assistant Commissioner of the new Schedule B will be appointed an Assistant Commissioner of the 5th class on Rs. 250 in that Schedule, and afterwards rise according to the scale given below:

To Assistant Commissioner, 4th class, on Rs. 300.	After three years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After three years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After three years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After three years' approved service in the 2nd class.

XII. An Assistant Commissioner of either Schedule who has put in at least two years in the first class of his grade, shall, if found fit, and if vacancies exist, be eligible for promotion to the grade of Senior Assistant Commissioner, carrying a pay of Rs. 500 rising by annual increments of Rs. 50 to Rs. 600. There shall be eight places in all in the last mentioned grade.

XIII. Every officer recruited by competition or by special selection under the rules shall, unless he has already received such training, be trained for not less than six months in the Survey Department and not less than six months in the Accounts Department; and every officer recruited by competition shall also be trained in the Judicial Department as a Munsiff or a Sub-Judge for not less than one year in the aggregate.

Appointments of Under and Assistant Secretaries in the General and Revenue Secretariat, Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Divisional Officers, Assistant Superintendents of Survey, Assistant Comptrollers and other appointments of equal rank in the said Departments, shall be filled by officers qualified by aptitude and training from the grade of Assistant Commissioners without distinction of Schedules. Such officers will draw the pay proper to the class in which they happen to be, from time to time, *plus* any special or local allowance attached to the appointment which they fill.

The following order of Governnent is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position, and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and
3 Survey Assistants,

was composed, at the beginning of the current year 1906, of—

5 Senior Assistant, and
7 Assistant Commissioners } of Schedule A,
9 Assistant Commissioners of Schedule B by competition,
6 Assistant Commissioners of Schedule B by nomination,
14 permanent,
12 acting and } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,
4 Probationary

in addition to—

1 Special Assistant and
1 Assistant and } Superintendents of Survey,
2 Sub-Assistant
8 Superintendents and Assistant Superintendents, and
3 Probationary Assistant Superintendents } of Police,
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximnm of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians Judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary.
	1 Assistant Secretary for duty with the Dewan.
	1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.)
	8 Treasury Assistant Commissioners.
	1 Huzur Treasury Officer.*
	2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
Total	..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem*, so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893 ...	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	...	10
1896 ...	...	3	...	2	2	7
1897 ...	1	2	2	1	1	7
1898 ...	...	2	2	...	4	8
1899 ...	...	5	2	...	5	12
1900 ...	1	2	1	2	1	7

1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.
1 General and Revenue Secretary.
1 Muzrai Secretary (until this appointment is abolished).
1 Deputy Secretary.
3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore. And, as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 18 places against 63 places reserved for purely local men.

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners. District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary *; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University : provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official Gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others : provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation ;

2ndly, a departmental service examination according to rules in force for the time being ;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule :—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. (1) The grade of Assistant Commissioners of the new Schedule B shall be recruited, soon after the results of each Civil Service Examination are known, by the special selection of the requisite number of persons, according to vacancies, (which on the average will not exceed seven at present) in the manner described in the second clause of Rule II; provided that ordinarily no person shall be selected on family or other considerations, unless he has passed the B.A. Degree of an Indian or other University.

(2) Nothing in clause (1) of this Rule is intended to prevent temporary promotions to the grade of Assistant Commissioner of the new Schedule B from subordinate grades, in order to fill existing vacancies; but an officer so promoted shall not, merely by reason of such promotion, be entitled to confirmation when permanent appointments are made under clause (1).

(3) The question of including in the new Schedule B, such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor, is reserved for separate orders.

X. The provisions of Rule VII in regard to the period of probation and the examinations to be passed shall be applicable also to those admitted to the Civil Service under Rule IX; provided that a recruit taken from the subordinate grades will be confirmed as soon as he fully qualifies himself by passing the prescribed examinations, irrespective of his putting in the full period of probation of two years; and that his initial pay in the grade of Assistant Commissioner, (new) Schedule B, shall be at least Rs. 50 more than the pay he was last permanently drawing in the subordinate grades.

XI. On becoming qualified for confirmation as above, a Probationary Assistant Commissioner of the new Schedule B will be appointed an Assistant Commissioner of the 5th class on Rs. 250 in that Schedule, and afterwards rise according to the scale given below:

To Assistant Commissioner, 4th class, on Rs. 300.	After three years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After three years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After three years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After three years' approved service in the 2nd class.

XII. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by duly qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishments of the Revenue Department shall be accorded preference in the following order:—

(1) Graduates.
(2) Candidates who have passed the First Examination in Arts.
(3) Qualified candidates who hold a certificate from any recognized College of Agriculture.

(4) Candidates who have passed the Matriculation Examination.

(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other eqivalent Examination.

11. In awarding *promotions*, preference shall be given to—

(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.

(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Sheikdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications of longer standing, for the following offices:—

(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office and (3) Head Clerk, Assistant Commissioner's office.

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.
2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.
3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months, provided the acting allowance does not exceed Rs. 15 per mensem.
4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it:—

(1) Any appointment in the Account Branch of the Deputy Commissioners's office.	Account Test.
(2) Taluk Sheristadar.	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—

(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and

(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

*Revised Local Service Examination Rules, providing (among other things) for Higher and Lower grades under certain Tests, will be separately issued.

Notifications by the Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE.

No. Fl. 1510—*Gen. Fin.* 280-04-38, *dated* 15*th August* 1906.

It is hereby notified for general information that, with effect from the 1st October 1906, the following changes will be made in the Mysore Government Savings Banks Rules now in force :—

Rule 1, clause IV, will be altered as follows :—

"Without the sanction of the Comptroller no account will be opened for less than one rupee and no person may deposit more than two thousand rupees in all between any 1st July and the 30th June next following. The total amount which a depositor may have at his credit at any time, exclusive of interest for the current year, should not also exceed Rs. 5,000."

For paragraph 1 of Rule 1, clause VII, the following should be substituted :—

"From 1st October 1906 until further notice, interest will be allowed upon deposits at the rate of one pie a month on every two rupees, which is equal to one anna for every twenty-four rupees, being at the rate of three and one-eighth per cent per annum. Without the sanction of the Comptroller no higher monthly interest will be allowed upon any balance than Rs. 13-0-4, being the interest upon Rs. 5,000."

Rule 10 should be altered as under :—

"10. The limit of Rs. 2,000 for a single depositor within one year may be exceeded only in the following cases :—

(1) A security deposit with a Government officer.

(2) A benevolent or quasi-public institution.

(3) A transfer from another taluk or district (Mysore Government) Savings Bank, so far as money transferred is not on account of deposits made in the current year.

In each case the reason for allowing it must be explained, in the monthly statement of deposits.

The limit of Rs. 2,000 is to be construed strictly; withdrawals must not be deducted in applying it."

2. The Comptroller to the Government of His Highness the Maharaja will issue further instructions regarding the payment of interest on deposits in excess of Rs. 5,000 on individual accounts and the work of calculation of such interest.

No. Fl. 1511—*Gen. Fin.* 280-04-39, *dated* 15*th August* 1906.

With the consent of the Government of India, the Government of His Highness the Maharaja of Mysore have decided to issue a four per cent loan to the extent of twenty lakhs of rupees to meet expenditure on productive works. As this loan is required at a time when heavy withdrawals from the Government Savings Banks are anticipated, it has been decided in the first place to offer the amount of the loan only to Savings Bank Depositors in repayment of the deposits.

2. Under Government Notification No. Fl. 1510—Gen. Fin. 280-04-38 of this date, the total deposits in the Government Savings Banks on individual accounts may not exceed Rs. 5,000 from 1st October 1906. Accordingly any depositor who has at present at his credit a balance in excess of Rs. 5,000 will be obliged either to withdraw such excess or will not get interest on such excess after 30th September at a rate of more than two per cent per annum.

3. Depositors in Government Savings Banks, the balances of whose deposits excluding interest exceed Rs. 5,000 on the 30th June 1906, are hereby given the option of receiving in lieu of cash in payment of such excess their equivalent at par of four per cent Pro-Notes of the Government of Mysore to be issued under this Notification.

4. The amount for which Promissory Notes will be issued in any case shall not exceed the total amount over and above Rs. 5,000 held at credit of the depositor on the 30th June 1906, provided that no Promissory Note will be issued for any sum less than Rs. 500 and all Notes issued will be for amounts which are an exact multiple of Rs. 100.

5. Promissory Notes will be issued under this Notification in the form given below. The loan will be called "The Four per cent Mysore State Loan of 1906-07." The interest on the loan is payable half-yearly on the 1st day of April and the 1st day of October, and the Notes are liable to discharge on the 1st October 1921.

6. Depositors in the Mysore Government Savings Banks who wish to exercise the option given by clause 3 of this Notification should apply to the Comptroller to the Government of His Highness the Maharaja of Mysore on or before the 15th of September 1906. The application, which should be enclosed in a sealed cover superscribed "Applications for the Four per cent Mysore State Loan of 1906-07," should state the amount for which the Promissory Notes are wanted and should also be accompanied by the Pass Book or Books of the depositor. If the amount stated in the application is not an exact multiple of Rs. 100, the Comptroller will take it at the nearest multiple of Rs. 100, subject to the limits prescribed by clause 4 of this Notification.

7. No application for issue of Pro-Notes under this Notification will be received after the 15th of September 1906. If the total of the applications received for which Pro-Notes may be issued under this Notification exceeds twenty lakhs of rupees, then the excess will, as far as possible, be rateably deducted from all the tenders received.

8. The Promissory Notes issued will bear interest from 1st of October 1906 and in the Savings Bank accounts the interest on the deposits converted into the loan will be calculated up to 30th September 1906.

9. All depositors who exercise the option given by clause 3 of this Notification before the end of August 1906 will be entitled to receive a commission of one-half per cent on the amount for which Pro-Notes may be issued to them.

10. In the event of the whole of the sum of twenty lakhs not being allotted to Savings Bank Depositors in the manner indicated, the Government of His Highness the Maharaja of Mysore reserve to themselves the right to raise the balance by public tender or in any other way as may be considered expedient.

11. The Comptroller will furnish all further information that may be required by intending applicants and will issue instructions to the Treasuries regarding adjustment in the Savings Bank Ledgers of transactions connected with the loan.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906 :

1. The Revenue Department for the purposes of these Rules shall comprise the following offices :—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.
(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.
(3) The office of the Registrar of Co-operative Societies.
(4) The offices of Deputy and Assistant Commissioners in all their Branches.
(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are

forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. No. R. 1678—*L. R.* 105-01-1, *dated 7th August* 1906.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906 :

1. The Revenue Department for the purposes of these Rules shall comprise the following offices :—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.
(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.
(3) The office of the Registrar of Co-operative Societies.
(4) The offices of Deputy and Assistant Commissioners in all their Branches.
(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishment of the Department shall be accorded preference in the following order :—

(1) Graduates.
(2) Candidates who have passed the First Examination in Arts.
(3) Qualified candidates who hold a certificate from any recognized agricultural ex-ture.

(4) Candidates who have passed the Matriculation Examination.

(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other equivalent Examination.

11. In awarding *promotions*, preference shall be given to—

(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.

(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Shekdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications, of longer standing, for the following offices:—

(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office and (3) Head Clerk, Assistant Commissioner's office.

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.
2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.
3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months, provided the acting allowance does not exceed Rs. 15 per mensem.
4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it:—

(1) Any appointment in the Account Branch of the Deputy Commissioners's office.	Account Test.
(2) Taluk Sheristadar.	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—

(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and

(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

* Revised Local Service Examination Rules, providing (among other things) for Higher and Lower grades under certain Tests will be separately issued.

Notifications by the Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE.

No. G. 1456, dated the 20th August 1906.

The following order of His Highness the Maharaja is published for general information:—

I. In supersession of Notification No. 36, dated the 8th August 1902, His Highness the Maharaja has been pleased to direct that the Council, therein styled the Consultative Council, shall be styled "The Council of His Highness the Maharaja" and that it shall consist as heretofore of the Dewan and two Members, whose duty it will be to advise His Highness in all important matters.

II. The following rules are prescribed for the conduct of business in the Council of His Highness the Maharaja:—

1. The work of the State will be distributed by Departments between the Dewan and the Councillors as shown in the appended statement, which will be liable to alteration at the discretion of His Highness the Maharaja.

2. Cases falling under the Schedule appended to this Notification shall be submitted by the Secretary in the first instance to the Dewan or Councillor in charge of the Department concerned, on whom will rest the initiative, entailing, where necessary, the preparation of a note for the consideration of the Council. They shall

then be placed before the Council, and submitted, with the opinion of the Dewan and Councillors, for the orders of His Highness the Maharaja, by the Dewan.

3. Cases not falling under the Schedule shall ordinarily be dealt with by the Member in charge of the Department to which the case pertains. Similarly the Dewan will deal with non-scheduled cases pertaining to the Departments under his charge. But certain important classes of cases relating to the Departments under the charge of a Member (to be specified in confidential Secretariat instructions prepared under the orders of His Highness the Maharaja) shall be dealt with by the Dewan in his capacity as the Chief Executive Officer of the State. Such cases the Secretary, after noting or drafting, shall forward to the Dewan for disposal through the Councillor or Councillors in charge of the Department or Departments concerned, who will note his or their suggestions as to the orders which should issue.

Provided as follows:—

(i) When the matter dealt with by a Councillor is one involving doubt, delicacy or importance, the papers shall, before the issue of final orders, be referred to the Dewan.

(ii) The Dewan may also, in any particular case, direct that the papers be submitted to him before the issue of final orders.

(iii) The Dewan may also call for the records in any case in order to satisfy himself as to the correctness of orders issued under the directions of a Councillor.

(iv) An abstract of the cases disposed of by each Councillor and of the orders issued shall be submitted every week to the Dewan for information.

4. Should any material difference of opinion between the Dewan and the Councillor be established with respect to a case falling under Rule 3, it will be in the discretion of the Dewan either to direct that the matter may be dealt with as though it were one falling within the Schedule, or to submit it direct for the orders of His Highness the Maharaja.

5. If, in any matter connected with a Department not immediately under his own charge, the Dewan considers that immediate action is necessary and that the delay involved in consulting the Councillor in charge of the Department is likely to be prejudicial, he may issue orders on his own authority. In all such cases, a copy of the Dewan's orders shall at once be supplied to the Member whose Department is concerned, and the proceedings shall be reported for the information of His Highness the Maharaja, with a statement of the reasons which necessitated recourse to the special powers conferred by this rule.

6. The Secretary in each Department shall work under the general or special directions of the Dewan and be responsible to him except in regard to cases falling under Rule 3, as to which the Secretary shall take the orders of the Councillor concerned.

7. A Member shall have the power to call upon the Secretary to supply information regarding a case pending before such Member, or regarding the manner of, or delay in, disposal of any case which the Member has had before him.

8. The Dewan shall regulate the order of business in Council and preside at the meetings.

9. A Journal shall be kept in which the opinions of the Dewan and Members shall be recorded.

10. The Council shall meet regularly at stated intervals. His Highness the Maharaja or the Dewan may summon a meeting of the Council whenever His Highness or the Dewan may deem it necessary.

11. Whenever the Dewan and the Councillors, or any of them, are on tour, or whenever otherwise necessary, papers may be disposed of in circulation.

12. (1) Appeals which lie to Government under Section 210 of the Mysore Land Revenue Code, IV of 1888, from the decisions of the Revenue Commissioner, in cases falling under clauses (*a*) to (*g*) of Section 221 thereof, shall be heard and decided by two Members of Council.

(2) In the disposal of the matters aforesaid, the following rules shall be observed :—

(*a*) When there arises a difference of opinion between two Members of Council on any material question pending before them, such question shall be referred to the Dewan, and the decision of the Government shall follow the opinion with which the Dewan agrees;

(*b*) No order of a subordinate officer shall be modified or reversed without due notice of the hearing of the case to the party whose interests will thereby be affected;

(*c*) Any party appearing in person will be duly heard, provided that a woman or a minor may appear by her or his next friend or guardian.

The following Proceedings of the Government of His Highness the Maharaja of Mysore, are published for general information :—

READ—

Government Notification No. R. 9172—L. R. 35[illegible]-05-2, dated the 5th January 1906, sanctioning revised rules relating to the scheme for improving the Shekdari service.

No. R. 2309-21—L. R. 150-06-1, DATED BANGALORE, 20TH AUGUST 1906.

ORDER THEREON.—The rules issued on the 5th January last are found to require further revision in the following respects :—

2. The minimum educational qualification prescribed for admission, *viz.*, the passing of the Matriculation Examination, will, it is feared, exclude persons belonging to classes backward in education, such as Mahomedans who make excellent Shekdars. It is therefore proposed to lower it in such cases to the passing of the Mysore Lower Secondary Examination. It is considered unnecessary to lay down what classes are to be deemed backward in education, as no general definition is possible or necessary. The Deputy Commissioners of Districts taking action under Rule 5 will exercise their discretion in each case.

3. The differentiation of the Local Service Revenue Test into a Higher and a Lower grade, so as to meet the case of the smaller officials, for whom the present Revenue Examination is too high, is under contemplation. Candidates for Shekdari need pass the Lower grade only.

4. The standard in Engineering, prescribed in the existing rules, is found to be too high and elaborate for the class of officials under consideration; and difficulties have, moreover, been reported to exist in arranging for the training in the Mysore Engineering School of even the first batch of candidates sent to it. It is therefore proposed, firstly, to simplify the course of study, secondly, to reduce the course of training from one year to six months, and thirdly, to arrange in connection with the Police Training School at Bangalore (where facilities for teaching Drawing and Surveying to Police recruits already exist) for the formation of a regular Engineering class, with additional teachers if necessary. Admissions to the class of candidates for the Shekdari service will be made under the orders of the Revenue Commissioner on the recommendation of Deputy Commissioners of Districts.

5. The rule in regard to ability to ride has been simplified.

6. The training in Surveying will be given in the Engineering class itself, and it is considered unnecessary to attach candidates to measuring establishments or to District Surveyors.

7. It is considered inexpedient to reserve power to appoint candidates who do not possess all the qualifications on the date of their appointment, as in the existing rules.

8. The existing rules do not provide for Shekdars of the old school who are not Matriculates qualifying under the new scheme. Many of them are capable and deserving men whom it would be undesirable and unfair to shut out altogether from its scope. It is therefore provided that such persons whether belonging to Schedule B or C shall be admitted to the benefit of the new scale on their passing the Revenue Test (Lower grade) and qualifying themselves in the Engineering subjects specified in Rule 6. In order to enable them to qualify themselves in the latter respect, full pay will be given them during the period of their training in the Engineering class on the analogy of what was ordered in the case of Police Inspectors when the Police Training School was started in 1893. Other candidates in service must possess the general educational qualification laid down, and they will be given half pay while in the Engineering class. Those who fail the first time will not be allowed the concession a second time.

9. The Revenue Commissioner will arrange in consultation with the Inspector-General of Police and the Chief Engineer for the opening of an Engineering class as early as possible in connection with the Police Training School. The Chief Engineer

will be requested to depute a qualified Public Works subordinate, competent to teach the Engineering subjects prescribed, for employment in the Police Training School; and if necessary, the Survey and Settlement Commissioner may be asked to lend the services of a Measurer for teaching surveying, measuring, the sub-dividing of fields, etc.

10. With these remarks, the Government of His Highness the Maharaja are pleased to issue the following rules in supersession of those published with the Notification of 5th January 1906:—

RULES.

1. From the 1st of July 1904, the pay of Shekdars shall be Rs. 35 for the first class, Rs. 30 for the second and Rs. 25 for the third.

2. The total number of Shekdars shall be 374; and their number in each class shall not exceed the following proportion:—

Twenty per cent of the total number in the first class, *i.e.*, 75 at Rs. 35 each.
Thirty per cent of the total number in the second class, *i.e.*, 112 at Rs. 30 do.
Fifty per cent of the total number in the third class, *i.e.*, 187 at Rs. 25 do.

3. Shekdars will draw a horse allowance of Rs. 10 each per month, and the malnad allowance, wherever allowed, will continue as heretofore.

4. Every Shekdar shall keep a decent riding pony, and spend at least twenty days in every month on tour in his hobli.

5. No one shall be eligible for appointment as a Shekdar under the new scheme

(1) who has not passed a University Examination not lower than the Matriculation, unless, in the opinion of the Deputy Commissioner of the District, he belongs to a class backward in education, in which case a pass in the Mysore Lower Secondary Examination may be accepted as sufficient;

(2) who is above the age of twenty-five years, unless he be already in service;

(3) who is not pronounced physically fit by a Medical Officer not inferior in rank to a District Medical Officer;

(4) who has not passed the Local Service Revenue Examination (Lower grade);

(5) who is not able to read and write Canarese with facility.

6. (1) Candidates satisfying the conditions mentioned in Rule 5 shall undergo instruction in the following subjects for a period not exceeding six months in the Engineering class attached to the Police Training School at Bangalore:—

(1) Building—Drawing and Estimating (Elementary).

(2) Building Materials and Construction (Elementary).

(3) Mensuration (do).

(4) Earthwork, road-making and tank repairs (do).

(5) Chain surveying.

(2) Applications for admission to the Engineering class shall be made to the Deputy Commissioners of Districts, who shall satisfy themselves that the qualifications of the applicants are as laid down in Rule 5, and then forward the applications to the Revenue Commissioner for orders of admission to the class.

7. On completing the course of study prescribed in Rule 6 and obtaining a certificate of qualification therein, a candidate will be eligible for appointment as a Shekdar on the occurrence of a vacancy, provided that the Deputy Commissioner is satisfied that he is able to ride.

8. (1) Shekdars already in the service of Government, who have passed the Mysore Local Service Revenue Examination (Lower Grade) and who wish to avail themselves of the benefit of the new scale, shall be required to qualify themselves under Rule 6. During the period of their training in the Engineering class, they shall receive full pay, without allowances; and the men appointed to act in their places will receive Rs. 15 per mensem plus horse allowance and Malnad allowance if any.

(2) In the case of other persons in Government service, all the qualifications laid down in Rules 5 and 6 shall be insisted on. No. R. 3145—L. R. 212-06-2, dated 11th September 1906.

The following Order of Government, made in exercise of powers conferred by Sections 4 and 233 of the Mysore Land Revenue Code, 1888, and all other powers enabling them in this behalf, is published as required by Section 234 of the said Code :—

No. R. 3105-44—L. R. 212-06-1, DATED BANGALORE, 11TH SEPTEMBER 1906.

ORDER.—The Mysore Land Revenue Code, 1888 having been amended by Regulation No. VI of 1906, the Government of His Highness the Maharaja take this opportunity of explaining briefly the changes introduced by that Regulation in the existing system of revenue administration, and at the same time of defining the additional powers and duties which it is considered desirable to assign to the Revenue Commissioner.

2. The Mysore Land Revenue Code, as enacted in 1888, reserved power to Government to appoint a Revenue Commissioner, and to assign to him the duties and powers of Government set out in Schedule I of the Code, subject to certain conditions. It has been found by experience to be desirable to formally constitute the Revenue Commissioner as the chief controlling Revenue authority in land revenue matters subject to Government, provision being made in the Code itself for his being vested with the duties and powers which he is to perform and exercise.

Accordingly, the new Section 4 (as substituted by Regulation VI of 1906) declares that the chief controlling authority in land revenue matters is vested in the Revenue Commissioner subject to Government, and defines the duties and powers to be performed and exercised by him. Schedule I, being no longer necessary, has been repealed, and various minor consequential changes have been made in other provisions of the Code with a view to making the same as far as possible identical with the provisions of the Bombay Land Revenue Code.

The full appellate jurisdiction which the Revenue Commissioner could have exercised under Section 210 of the Code had been to some extent curtailed by Notification No. 37, dated the 8th August 1902. This Notification will be formally cancelled, as it has virtually been by the amendments now made to the Land Revenue Code, as the effect of which the Revenue Commissioner will (among other things) have full powers of appeal from the decisions and orders of subordinate Revenue officers. In order to secure a reasonable degree of finality with respect to the appellate orders of the Revenue Commissioner, an additional clause has been inserted in Section 210, so as to bar appeals to Government from appellate decisions or orders passed by that officer except on points of law or usage having the force of law. The law in Bombay is somewhat different and makes all orders of Commissioners on second appeal final.

3. Having thus explained the scope of the amendments of the law recently introduced, Government now proceed to indicate in greater detail the extent to which and the directions in which the functions of the Revenue Commissioner will be enlarged beyond those assigned to him at present.

4. The office of the Revenue Commissioner was created in August 1902 for the purpose of providing for the more efficient control and supervision of the Revenue Department. Although there has been considerable improvement in the working of the Department since then, yet the results achieved have not come up to the full expectations of Government, owing no doubt in some measure to its not having been found possible at the outset to invest the Revenue Commissioner with all the powers properly pertaining to his office.

The fact that he has now been constituted the chief controlling revenue authority, and that his responsibility as such for the Revenue Administration has been fully recognized, will, it is hoped, ensure the full attainment of the object with which the appointment was created, and enable him to effectually carry out all measures calculated to promote the industrial and agricultural progress of the country, and to improve and maintain at a high level the efficiency of the Revenue service generally.

5. *Land Revenue.*—The following powers heretofore exercised by Government will now be delegated to the Revenue Commissioner :—

(1) Power to deal with the reports of the Deputy Commissioners regarding the sufficiency and realisable nature of the securities taken from Revenue officers under Rule 8 of the Land Revenue Rules.

(2) Power to sanction appropriation of lands for roads whether Provincial or Local Fund, and for schools, Dharmasalas and other public purposes, where no compensation has to be paid by Government for lands taken up; subject to the limitation that the market value of the land appropriated, if unassessed, does not exceed Rs. 100 in any case, and the assessment of the land, if assessed, does not exceed Rs. 5. The Revenue Commissioner should submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(3) Power to appropriate assessed Government lands for extension of village sites and to write off assessment thereon.

(4) Power to exercise the special powers reserved to Government in the grant of lands for garden cultivation under Appendix I of the Land Revenue Rules of 1890, subject to the condition that the assessment of the land so granted in any case does not exceed Rs. 500.

(5) Power to sanction refunds admissible under the Rules, submitting to Government half-yearly returns of the same.

(6) Power to direct the remission of irrecoverable arrears of revenue, submitting to Government half-yearly returns of the same.

6. *Reports and Returns.*—Separate orders will be issued in regard to the reports and returns relating to collections of land revenue and other allied matters that will hereafter be dealt with by the Revenue Commissioner.

7. *Tanks and other works of irrigation.*—The responsibility for enforcing the rules with regard to the maintenance of tanks and other works of irrigation in the charge of the Revenue Department, the imposition and recovery of contribution, and the working of the minor tanks restoration scheme, will hereafter rest with the Revenue Commissioner. He will also arrange, in communication with the Chief Engineer, to secure a due distribution of the allotment for the restoration of minor tanks; and all applications for funds and special treatment should be made by Deputy Commissioners primarily to the Revenue Commissioner. He will have the right to call for progress reports and otherwise control the execution of such works by the Revenue Department.

8. *Land Acquisition.*—The Revenue Commissioner will be authorized to control the progress of land acquisition proceedings by obtaining periodical reports so as to be able to direct their completion with all reasonable despatch. He will have the power to write off the assessment on lands acquired under the orders of Government.

9. *Loans.*—The Revenue Commissioner will be empowered—

(1) to distribute among the districts allotments of funds for the two classes of loans, Land Improvement and Agricultural Loans, after sanction of the provincial allotment by Government;

(2) to transfer the unexpended balance of the allotment from one district to another;

(3) to sanction loans under the Land Improvement Loans Regulation up to a limit of Rs. 2,500, and loans under the Rules framed under Section 194 of the Mysore Land Revenue Code up to a limit of Rs. 1,000;

(4) to confirm the proceedings of Deputy Commissioners suspending payment of instalments of loans or to pass other suitable orders in such cases; and

(5) to write off irrecoverable items up to Rs. 100 in each case.

10. *Treasury and Forest Administration.*—Separate action will be taken in the matter of defining (1) the extent of the responsibility of the Revenue Commissioner in regard to the administration of Treasuries and (2) his position in regard to proposals affecting the use of forests and waste lands.

11. *Stamps.*—The constitution of a chief controlling Revenue authority for the purposes of the Stamp and Court Fees Regulations, and the appointment of an *ex-officio* Commissioner of Stamps for supervising the administration of the stamp revenue, are also reserved for separate consideration.

12. *Agricultural Banks and Co-operative Societies.*—The Revenue Commissioner is empowered to inspect Co-operative Societies and Agricultural Banks, including Coffee Banks, and review the reports of inspections forwarded by Deputy Commissioners and the Registrar of Co-operative Societies (who will also be constituted Inspector of Agricultural Banks and placed under the Revenue Commissioner). The previous orders of Government should be obtained by him in matters involving a change in the securities for loans, if any, advanced by Government to such institutions. Recommendations to Government for the establishment of new Agricultural Banks and the winding up of existing ones should be made through the Revenue Commissioner.

13. *Agricultural and other Statistics.*—In addition to his other work, the Revenue Commissioner will continue to exercise, in virtue of his office, the functions of Director of Agricultural and other Statistics, and as such he will collect and deal with all statistical returns relating to the season, agriculture, and the condition and well-being of the people, and devote attention to the improvement of agriculture and the breed of cattle.

14. *Famine Administration.*—Under Section 49 of the Famine Code, in the absence of a specially appointed Famine Commissioner, the Revenue Commissioner is vested with all the powers delegated to the Famine Commissioner under the Famine Code; and he is responsible for the due enforcement of its provisions both under ordinary and abnormal conditions. He will not only acquaint himself with current agricultural conditions at all times, but also concert such measures as may be necessary in seasons of stress or difficulty to prevent the occurrence of distress or to secure the relief thereof.

15. *Leave to Assistant Commissioners and Amildars.*—The Revenue Commissioner will grant casual leave to Assistant Commissioners, and casual leave and privilege leave not exceeding one month to Amildars and Deputy Amildars, the grant of privilege leave being notified in Part II of the *Mysore Gazette*.

16. *Appointments in subordinate offices.*—As regards appointments beyond the competence of Deputy Commissioners or requiring the approval of higher authority, in their own offices, or those of Assistant Commissioners, Amildars and Deputy Amildars, other than appointments on or above or progressing to Rs. 100, and other than appointments in the Police and Forest Branches of the offices of Deputy Commissioners, the sanction or approval required shall, in the absence of express statutory provision to the contrary, be that of the Revenue Commissioner.

17. *Appeals not otherwise provided for.*—In Revenue and other matters falling within his jurisdiction and not already provided for by any Rule or Regulation, the Revenue Commissioner shall have, and is hereby invested with, the power of hearing appeals from orders of Deputy Commissioners and revising them.

18. The Revenue Commissioner will [illegible] as heretofore to exercise and perform any [illegible] powers and duties (not being [illegible] [illegible]einbefore mentioned) which may have been [illegible]y assigned to him, in so far as [illegible] inconsistent with the directions contained [illegible]s order.

The following Order of Government, made in exercise of powers conferred by Sections 4 and 233 of the Mysore Land Revenue Code, 1888, and all other powers enabling them in this behalf, is published as required by Section 234 of the said Code :—

No. R. 3105-44—L. R. 212-06-1, DATED BANGALORE, 11TH SEPTEMBER 1906.

ORDER.—The Mysore Land Revenue Code, 1888, having been amended by Regulation No. VI of 1906, the Government of His Highness the Maharaja take this opportunity of explaining briefly the changes introduced by that Regulation in the existing system of revenue administration, and at the same time of defining the additional powers and duties which it is considered desirable to assign to the Revenue Commissioner.

2. The Mysore Land Revenue Code, as enacted in 1888, reserved power to Government to appoint a Revenue Commissioner, and to assign to him the duties and powers of Government set out in Schedule I of the Code, subject to certain conditions. It has been found by experience to be desirable to formally constitute the Revenue Commissioner as the chief controlling Revenue authority in land revenue matters subject to Government, provision being made in the Code itself for his being vested with the duties and powers which he is to perform and exercise.

Accordingly, the new Section 4 (as substituted by Regulation VI of 1906) declares that the chief controlling authority in land revenue matters is vested in the Revenue Commissioner subject to Government, and defines the duties and powers to be performed and exercised by him. Schedule I, being no longer necessary, has been repealed, and various minor consequential changes have been made in other provisions of the Code with a view to making the same as far as possible identical with the provisions of the Bombay Land Revenue Code.

The full appellate jurisdiction which the Revenue Commissioner could have exercised under Section 210 of the Code had been to some extent curtailed by Notification No. 37, dated the 8th August 1902. This Notification will be formally cancelled, as it has virtually been by the amendments now made to the Land Revenue Code, as the effect of which the Revenue Commissioner will (among other things) have full powers of appeal from the decisions and orders of subordinate Revenue officers. In order to secure a reasonable degree of finality with respect to the appellate orders of the Revenue Commissioner, an additional clause has been inserted in Section 210, so as to bar appeals to Government from appellate decisions or orders passed by that officer except on points of law or usage having the force of law. The law in Bombay is somewhat different and makes all orders of Commissioners on second appeal final.

3. Having thus explained the scope of the amendments of the law recently introduced, Government now proceed to indicate in greater detail the extent to which and the directions in which the functions of the Revenue Commissioner will be enlarged beyond those assigned to him at present.

4. The office of the Revenue Commissioner was created in August 1902 for the purpose of providing for the more efficient control and supervision of the Revenue Department. Although there has been considerable improvement in the working of the Department since then, yet the results achieved have not come up to the full expectations of Government, owing no doubt in some measure to its not having been found possible at the outset to invest the Revenue Commissioner with all the powers properly pertaining to his office.

The fact that he has now been constituted the chief controlling revenue authority, and that his responsibility as such for the Revenue Administration has been fully recognized, will, it is hoped, ensure the full attainment of the object with which the appointment was created, and enable him to effectually carry out all measures calculated to promote the industrial and agricultural progress of the country, and to improve and maintain at a high level the efficiency of the Revenue service generally.

5. *Land Revenue.*—The following powers heretofore exercised by Government will now be delegated to the Revenue Commissioner :—

(1) Power to deal with the reports of the Deputy Commissioners regarding the sufficiency and realisable nature of the securities taken from Revenue officers under Rule 8 of the Land Revenue Rules.

(2) Power to sanction appropriation of lands for roads whether Provincial or Local Fund, and for schools, Dharmasalas and other public purposes, where no compensation has to be paid by Government for lands taken up; subject to the limitation that the market value of the land appropriated, if unassessed, does not exceed Rs. 100 in any case, and the assessment of the land, if assessed, does not exceed Rs. 5. The Revenue Commissioner should submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(3) Power to appropriate assessed Government lands for extension of village sites and to write off assessment thereon.

(4) Power to exercise the special powers reserved to Government in the grant of lands for garden cultivation under Appendix I of the Land Revenue Rules of 1890, subject to the condition that the assessment of the land so granted in any case does not exceed Rs. 500.

(5) Power to sanction refunds admissible under the Rules, submitting to Government half-yearly returns of the same.

(6) Power to direct the remission of irrecoverable arrears of revenue, submitting to Government half-yearly returns of the same.

6. *Reports and Returns.*—Separate orders will be issued in regard to the reports and returns relating to collections of land revenue and other allied matters that will hereafter be dealt with by the Revenue Commissioner.

7. *Tanks and other works of irrigation.*—The responsibility for enforcing the rules with regard to the maintenance of tanks and other works of irrigation in the charge of the Revenue Department, the imposition and recovery of contribution, and the working of the minor tanks restoration scheme, will hereafter rest with the Revenue Commissioner. He will also arrange, in communication with the Chief Engineer, to secure a due distribution of the allotment for the restoration of minor tanks; and all applications for funds and special treatment should be made by Deputy Commissioners primarily to the Revenue Commissioner. He will have the right to call for progress reports and otherwise control the execution of such works by the Revenue Department.

8. *Land Acquisition.*—The Revenue Commissioner will be authorized to control the progress of land acquisition proceedings by obtaining periodical reports so as to be able to direct their completion with all reasonable despatch. He will have the power to write off the assessment on lands acquired under the orders of Government.

9. *Loans.*—The Revenue Commissioner will be empowered—

(1) to distribute among the districts allotments of funds for the two classes of loans, Land Improvement and Agricultural Loans, after sanction of the provincial allotment by Government;

(2) to transfer the unexpended balance of the allotment from one district to another;

(3) to sanction loans under the Land Improvement Loans Regulation up to a limit of Rs. 2,500, and loans under the Rules framed under Section 194 of the Mysore Land Revenue Code up to a limit of Rs. 1,000;

(4) to confirm the proceedings of Deputy Commissioners suspending payment of instalments of loans or to pass other suitable orders in such cases; and

(5) to write off irrecoverable items up to Rs. 100 in each case.

10. *Treasury and Forest Administration.*—Separate action will be taken in the matter of defining (1) the extent of the responsibility of the Revenue Commissioner in regard to the administration of Treasuries and (2) his position in regard to proposals affecting the use of forests and waste lands.

11. *Stamps.*—The constitution of a chief controlling Revenue authority for the purposes of the Stamp and Court Fees Regulations, and the appointment of an *ex-officio* Commissioner of Stamps for supervising the administration of the stamp revenue, are also reserved for separate consideration.

12. *Agricultural Banks and Co-operative Societies.*—The Revenue Commissioner is empowered to inspect Co-operative Societies and Agricultural Banks, including Coffee Banks, and to review the reports of inspections forwarded by Deputy Commissioners and the Registrar of Co-operative Societies (who will also be constituted Inspector of Agricultural Banks and placed under the Revenue Commissioner). The previous orders of Government should be obtained by him in matters involving a change in the securities for loans, if any, advanced by Government to such institutions. Recommendations to Government for the establishment of new Agricultural Banks and the winding up of existing ones should be made through the Revenue Commissioner.

13. *Agricultural and other Statistics.*—In addition to his other work, the Revenue Commissioner will continue to exercise, in virtue of his office, the functions of Director of Agricultural and other Statistics, and as such he will collect and deal with all statistical returns relating to the season, agriculture, and the condition and well-being of the people, and devote attention to the improvement of agriculture and the breed of cattle.

14. *Famine Administration.*—Under Section 49 of the Famine Code, in the absence of a specially appointed Famine Commissioner, the Revenue Commissioner is vested with all the powers delegated to the Famine Commissioner under the Famine Code; and he is responsible for the due enforcement of its provisions both under ordinary and abnormal conditions. He will not only acquaint himself with current agricultural conditions at all times, but also concert such measures as may be necessary in seasons of stress or difficulty to prevent the occurrence of distress or to ensure the relief thereof.

15. *Leave to Assistant Commissioners and Amildars.*—The Revenue Commissioner will grant casual leave to Assistant Commissioners, and casual leave and privilege leave not exceeding one month to Amildars and Deputy Amildars, the grant of privilege leave being notified in Part II of the *Mysore Gazette.*

16. *Appointments in subordinate offices.*—As regards appointments beyond the competence of Deputy Commissioners or requiring the approval of higher authority, in their own offices, or in those of Assistant Commissioners, Amildars and Deputy Amildars, other than appointments on or above or progressing to Rs. 100, and other than appointments in the Police and Forest Branches of the offices of Deputy Commissioners, the sanction or approval required shall, in the absence of express statutory provision to the contrary, be that of the Revenue Commissioner.

17. *Appeals not otherwise provided for.*—In Revenue and other matters falling within his jurisdiction and not already provided for by any Rule or Regulation, the Revenue Commissioner will have, and is hereby invested with, the power of hearing appeals from orders of Deputy Commissioners and revising them.

18. The Revenue Commissioner will continue as heretofore to exercise and perform any other powers and duties (not being among those hereinbefore mentioned) which may have been already assigned to him, in so far as the same is not inconsistent with the directions contained in this order.

19. The Revenue Commissioner will submit to Government drafts of any amendments of existing Regulations and the Rules under them that may be rendered necessary by the powers now conferred on him.

No. R. 3253—*L. R.* 209-06-3, *dated* 15*th September* 1906.

Under Section 6 of the Land Acquisition Regulation, No. VII of 1894, it is hereby declared that the lands described hereunder are required for a public purpose, *viz.*, for opening a channel from road bridge to site of super passage at 3¾th mile of the Devaray Channel; and under Sections 7 and 3 (*c*) of the said Regulation, the Assistant Commissioner in charge of the French Rocks group of taluks is authorised to take order for the acquisition of the said land :—

No. R. 3145—*L. R.* 212-06-2, *dated 11th September* 1906.

The following Order of Government, made in exercise of powers conferred by Sections 4 and 233 of the Mysore Land Revenue Code, 1888, and all other powers enabling them in this behalf, is published as required by Section 234 of the said Code :—

No. R. 3105-44—L. R. 212-06-1, DATED BANGALORE, 11TH SEPTEMBER 1906.

ORDER.—The Mysore Land Revenue Code, 1888, having been amended by Regulation No. VI of 1906, the Government of His Highness the Maharaja take this opportunity of explaining briefly the changes introduced by that Regulation in the existing system of revenue administration, and at the same time of defining the additional powers and duties which it is considered desirable to assign to the Revenue Commissioner.

2. The Mysore Land Revenue Code, as enacted in 1888, reserved power to Government to appoint a Revenue Commissioner, and to assign to him the duties and powers of Government set out in Schedule I of the Code, subject to certain conditions. It has been found by experience to be desirable to formally constitute the Revenue Commissioner as the chief controlling Revenue authority in land revenue matters subject to Government, provision being made in the Code itself for his being vested with the duties and powers which he is to perform and exercise.

Accordingly, the new Section 4 (as substituted by Regulation VI of 1906) declares that the chief controlling authority in land revenue matters is vested in the Revenue Commissioner subject to Government, and defines the duties and powers to be performed and exercised by him. Schedule I, being no longer necessary, has been repealed, and various minor consequential changes have been made in other provisions of the Code with a view to making the same as far as possible identical with the provisions of the Bombay Land Revenue Code.

The full appellate jurisdiction which the Revenue Commissioner could have exercised under Section 210 of the Code had been to some extent curtailed by Notification No. 37, dated the 8th August 1902. This Notification will be formally cancelled, as it has virtually been by the amendments now made to the Land Revenue Code, as the effect of which the Revenue Commissioner will (among other things) have full powers of appeal from the decisions and orders of subordinate Revenue officers. In order to secure a reasonable degree of finality with respect to the appellate orders of the Revenue Commissioner, an additional clause has been inserted in Section 210, so as to bar appeals to Government from appellate decisions or orders passed by that officer except on points of law or usage having the force of law. The law in Bombay is somewhat different and makes all orders of Commissioners on second appeal final.

3. Having thus explained the scope of the amendments of the law recently introduced, Government now proceed to indicate in greater detail the extent to which and the directions in which the functions of the Revenue Commissioner will be enlarged beyond those assigned to him at present.

4. The office of the Revenue Commissioner was created in August 1902 for the purpose of providing for the more efficient control and supervision of the Revenue Department. Although there has been considerable improvement in the working of the Department since then, yet the results achieved have not come up to the full expectations of Government, owing no doubt in some measure to its not having been found possible at the outset to invest the Revenue Commissioner with all the powers properly pertaining to his office.

The fact that he has now been constituted the chief controlling revenue authority, and that his responsibility as such for the Revenue Administration has been fully recognized, will, it is hoped, ensure the full attainment of the object with which the appointment was created, and enable him to effectually carry out all measures calculated to promote the industrial and agricultural progress of the country, and to improve and maintain at a high level the efficiency of the Revenue service generally.

5. *Land Revenue.*—The following powers heretofore exercised by Government will now be delegated to the Revenue Commissioner :—

(1) Power to deal with the reports of the Deputy Commissioners regarding the sufficiency and realisable nature of the securities taken from Revenue officers under Rule 8 of the Land Revenue Rules.

(2) Power to sanction appropriation of lands for roads whether Provincial or Local Fund, and for schools, Dharmasalas and other public purposes, where no compensation has to be paid by Government for lands taken up; subject to the limitation that the market value of the land appropriated, if unassessed, does not exceed Rs. 100 in any case, and the assessment of the land, if assessed, does not exceed Rs. 5. The Revenue Commissioner should submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(3) Power to appropriate assessed Government lands for extension of village sites and to write off assessment thereon.

(4) Power to exercise the special powers reserved to Government in the grant of lands for garden cultivation under Appendix I of the Land Revenue Rules of 1890, subject to the condition that the assessment of the land so granted in any case does not exceed Rs. 500.

(5) Power to sanction refunds admissible under the Rules, submitting to Government half-yearly returns of the same.

(6) Power to direct the remission of irrecoverable arrears of revenue, submitting to Government half-yearly returns of the same.

6. *Reports and Returns.*—Separate orders will be issued in regard to the reports and returns relating to collections of land revenue and other allied matters that will hereafter be dealt with by the Revenue Commissioner.

7. *Tanks and other works of irrigation.*—The responsibility for enforcing the rules with regard to the maintenance of tanks and other works of irrigation in the charge of the Revenue Department, the imposition and recovery of contribution, and the working of the minor tanks restoration scheme, will hereafter rest with the Revenue Commissioner. He will also arrange, in communication with the Chief Engineer, to secure a due distribution of the allotment for the restoration of minor tanks; and all applications for funds and special treatment should be made by Deputy Commissioners primarily to the Revenue Commissioner. He will have the right to call for progress reports and otherwise control the execution of such works by the Revenue Department.

8. *Land Acquisition.*—The Revenue Commissioner will be authorized to control the progress of land acquisition proceedings by obtaining periodical reports so as to be able to direct their completion with all reasonable despatch. He will have the power to write off the assessment on lands acquired under the orders of Government.

9. *Loans.*—The Revenue Commissioner will be empowered—

(1) to distribute among the districts allotments of funds for the two classes of loans, Land Improvement and Agricultural Loans, after sanction of the provincial allotment by Government;

(2) to transfer the unexpended balance of the allotment from one district to another;

(3) to sanction loans under the Land Improvement Loans Regulation up to a limit of Rs. 2,500, and loans under the Rules framed under Section 194 of the Mysore Land Revenue Code up to a limit of Rs. 1,000;

(4) to confirm the proceedings of Deputy Commissioners suspending payment of instalments of loans or to pass other suitable orders in such cases; and

(5) to write off irrecoverable items up to Rs. 100 in each case.

10. *Treasury and Forest Administration.*—Separate action will be taken in the matter of defining (1) the extent of the responsibility of the Revenue Commissioner in regard to the administration of Treasuries and (2) his position in regard to proposals affecting the use of forests and waste lands.

11. *Stamps.*—The constitution of a chief controlling Revenue authority for the purposes of the Stamp and Court Fees Regulations, and the appointment of an *ex-officio* Commissioner of Stamps for supervising the administration of the stamp revenue, are also reserved for separate consideration.

12. *Agricultural Banks and Co-operative Societies.*—The Revenue Commissioner is empowered to inspect Co-operative Societies and Agricultural Banks, including Coffee Banks, and to review the reports of inspections forwarded by Deputy Commissioners and the Registrar of Co-operative Societies (who will also be constituted Inspector of Agricultural Banks and placed under the Revenue Commissioner). The previous orders of Government should be obtained by him in matters involving a change in the securities for loans, if any, advanced by Government to such institutions. Recommendations to Government for the establishment of new Agricultural Banks and the winding up of existing ones should be made through the Revenue Commissioner.

13. *Agricultural and other Statistics.*—In addition to his other work, the Revenue Commissioner will continue to exercise, in virtue of his office, the functions of Director of Agricultural and other Statistics, and as such he will collect and deal with all statistical returns relating to the season, agriculture, and the condition and well-being of the people, and devote attention to the improvement of agriculture and the breed of cattle.

14. *Famine Administration.*—Under Section 49 of the Famine Code, in the absence of a specially appointed Famine Commissioner, the Revenue Commissioner is vested with all the powers delegated to the Famine Commissioner under the Famine Code; and he is responsible for the due enforcement of its provisions both under ordinary and abnormal conditions. He will not only acquaint himself with current agricultural conditions at all times, but also concert such measures as may be necessary in seasons of stress or difficulty to prevent the occurrence of distress or to ensure the relief thereof.

15. *Leave to Assistant Commissioners and Amildars.*—The Revenue Commissioner will grant casual leave to Assistant Commissioners, and casual leave and privilege leave not exceeding one month to Amildars and Deputy Amildars, the grant of privilege leave being notified in Part II of the *Mysore Gazette.*

16. *Appointments in subordinate offices.*—As regards appointments beyond the competence of Deputy Commissioners or requiring the approval of higher authority, in their own offices, or in those of Assistant Commissioners, Amildars and Deputy Amildars, other than appointments on or above or progressing to Rs. 100, and other than appointments in the Police and Forest Branches of the offices of Deputy Commissioners, the sanction or approval required shall, in the absence of express statutory provision to the contrary, be that of the Revenue Commissioner.

17. *Appeals not otherwise provided for.*—In Revenue and other matters falling within his jurisdiction and not already provided for by any Rule or Regulation, the Revenue Commissioner will have, and is hereby invested with, the power of hearing appeals from orders of Deputy Commissioners and revising them.

18. The Revenue Commissioner will continue as heretofore to exercise and perform any other powers and duties (not being among those hereinbefore mentioned) which may have been already assigned to him, in so far as the same is not inconsistent with the directions contained in this order.

19. The Revenue Commissioner will submit to Government drafts of any amendments of existing Regulations and the Rules under them that may be rendered necessary by the powers now conferred on him.

The following order, passed by Government, under the powers conferred by the Mysore Land Revenue Code, 1888, is published under Section 234 thereof :—

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

(1) The following extracts from the office note on the subject of rubber cultivation :—

1. Grants of land for rubber cultivation have been sanctioned in the following cases :—

   i. Mr. Strickland (1903-04). About 250 acres in each of three different localities of the Shimoga District: Nagavalli, Barlimaranahalli and Mandagadde. (The last was subsequently refused.)

   ii. Mr. Pilkington (14th September 1905). 297 acres in Koppa Taluk.

   iii. Mr. Bonner (20th January 1906). 40 acres in Yedahalli Sub-Taluk.

   iv. Captain Lethbridge (8th January 1906). 847 acres in the Jagar valley, Chikmagalur Taluk.

2. The conditions laid down in these cases may be summarised as follows :—

   i. That the lands should be held free of assessment the first five years.

   ii. That they should be assessed at Re. 1½ per acre from the sixth year.

   iii. That the work of planting should be commenced within one year from the date of grant.

   iv That the actual plots chosen shall be approved by the Forest Department.

   v. That for the *bona fide* requirements of cultivation the grantee shall be at liberty to remove under-growth (all shrubs and trees, whether reserved or not, the growth of which is not more than 18 inches) and to make thinnings without

touching trees of the reserved kind and that he should allow the Forest and Revenue officials to see that these and other conditions are conformed to; also that the grantee be allowed to take timber required for building and fencing purposes like other raiyats; that the grantee shall have no right to cut, lop, or in any way injure the sandal trees, by clearing or burning the forest growth in their vicinity and that all trees and shrubs within a radius of 10 feet of a sandal tree or sapling shall be strictly preserved.

vi. That the Forest or Revenue Department should be allowed to cut and remove valuable timber trees which are not required for purposes of shade.

vii. That the grant shall be liable to summary resumption on failure of the grantee to comply with any of the above conditions. On this question, the decision of the Deputy Commissioner shall be final.

3. The above conditions are only tentative; and since rubber cultivation in the State is still in its experimental stage and sufficient experience has not been acquired as to the conditions most favourable to its profitable production consistently with the requirements of forest conservancy and other interests of Government, it has not been found possible to lay down any definite rules as to the exact concessions that should be granted. In the meantime and pending full investigation of the possibilities of rubber cultivation and the terms and conditions subject to which grants may be made, applications for lands on a large scale for rubber cultivation are not being granted.

4. Of the tentative conditions referred to above, that in regard to the prohibition of the felling of trees has not worked well. In one case the grantee would appear to have cut down trees, both reserved and unreserved, in contravention of the terms of the grant, and even set fire to whole areas for the purpose of clearing them for rubber planting. In another case also, the grantee has cut down all trees on the land granted to him, but has offered to pay their value to Government.

5. In granting lands for rubber cultivation the first point to be considered is what localities in the Mysore State are suited for successfully growing the different kinds of rubber. On this point, definite information is not available.

It seems desirable before large tracts of land are given out for rubber cultivation that the possibilities of the different parts of the State should be definitely ascertained and recorded.

6. Another point to be guarded against is the possibility of injury to valuable forest lands.

The expediency of retaining the condition in regard to the prohibition of the felling of trees has also to be considered. This is a difficult condition to enforce as experience abundantly shows. The full value of the trees on the tract applied for may be recovered from the applicant or the lands sold in auction subject to an upset price equivalent to the value of the trees.

7. In order to prevent speculative applications, it is necessary that there should be adequate guarantees that the applicants know something of rubber cultivation and its requirements.

(2) Notice No. R. 147, dated the 5th July 1906, inviting all persons interested in rubber cultivation and also all intending applicants for lands for such cultivation, to be present at a Conference proposed to be held at the Public Offices at Bangalore on the 16th August 1906, in order to enable the Government of His Highness the Maharaja to hear at first hand any representations which they may wish to make and on the other hand to give the latter an opportunity of learning the views held by Government in the matter of the terms and conditions relative to the grant of lands for rubber cultivation in Mysore.

(3) Proceedings of the Conference held at the Public Offices at Bangalore on the 16th August 1906.

No. R. 3474-84—L. R. 226-06-1, DATED BANGALORE, 28TH SEPTEMBER 1906.

ORDER THEREON.—After careful consideration of the question of the grant of land for rubber cultivation in all its aspects, and having due regard to the results of the experience, as far as available, gained during recent years both in Mysore and elsewhere, and also to the

representations of gentlemen interested in the industry, who where good enough to place their views before Government at the Conference held on the 16th August 1906, the Government of His Highness the Maharaja are now in a position to announce the conditions on which they will entertain applications for rubber cultivation in the State.

2. It should be premised that these conditions are tentative and intended primarily for the benefit of local applicants, whether natives of the country or planters who have already settled there. Local planters are in the opinion of Government entitled to preferential treatment over others, inasmuch as they already own or manage estates in the State and the Government recognize that the coffee planting industry has been beneficial to the State in the past, though it has been declining in recent years, and has proved unprofitable to several of the planters. The concessions which the Government are prepared to offer to such applicants cannot therefore be extended to applicants from outside, in regard to whom the Government reserve to themselves the liberty to fix such terms as they may consider most advantageous in each case. On the other hand, even to resident planters the benefit of the concessions cannot be indefinitely continued without prejudice to public interests and accordingly they will only be in force for the next two years and will be withdrawn in the case of applications received after the 30th June 1908. It should at the same time be distinctly understood that Government will not permit the concessions in question to be enjoyed by other than *bona fide* applicants about whose intention and ability to carry on rubber cultivation to good purpose the Government feel a reasonable degree of assurance, or to be alienated by grantees before the issue of final title-deeds.

3. In the case, then, of applicants to whom this order applies, the Government will be prepared to grant land not exceeding a maximum of 500 acres in any instance, free of assessment for the first five years from the date of the grant, and at an assessment of Rs. 3 per acre on all land included in the grant from and after the sixth year.

4. No upset price will be demanded till the expiry of the first five years, when an upset price of Rs. 10 per acre will be recovered; and the payment of the same will, for the benefit of persons who desire it, be spread over a period not exceeding five years.

5. The only condition that will be insisted on in the selection of land is that it should not be one which, for the protection of springs or for the preservation of the hill sides or other well marked natural features or on account of its containing valuable timber, or being evergreen forest of the kind known as "Kan," it is considered necessary to reserve to Government. To enable this condition to be enforced, all applications for land should be referred by the Revenue authorities to the Forest Department for investigation and opinion before recommendations are made to Government. If the block applied for adjoins a perennial stream or river, and it is not considered necessary to reserve the whole land, a belt fifty yards in width should be invariably reserved on either bank.

6. For the benefit of intending applicants and in order to avoid delay in the disposal of such applications, the Conservator will cause the Forest lands in the Malnad tracts of the State to be inspected and draw up as soon as possible a list of the lands which may be given out for rubber cultivation without prejudice to the interests mentioned in the previous paragraph.

7. To allow proper facilities for the clearing of land without depriving the Government of the value of the timber in them, Government direct that, after a land is made over to the applicant for rubber cultivation, he should give notice to the Forest Department, in the month of September of each year, of the extent and situation of the area that he intends to clear and plant in the succeeding year. The Forest Department will arrange to cut and remove, within six months of the receipt of the notice, all timber on the area likely to be cleared by him. Each succeeding year a similar notice should be given of the area intended to be operated upon in the year following to enable the Forest Department to remove timber on such area.

8. The Forest Department will not enforce its claims to any timber remaining uncut, after the expiry of the period of six months from the receipt of notice in each year, on the area in regard to which notice has been given by the applicant. And excepting only sandal, which should be scrupulously preserved, the applicant will be free to cut such trees, whether reserved or unreserved, on such area. Forest, Police and Revenue officers will have free access to the plantations in order to enable them to attend to the conservancy and extraction of sandal.

9. After the full upset price of Rs. 10 per acre shall have been recovered, a title-deed in Form A annexed to the Rules contained in Appendix E to the Land Revenue Rules of 1890, will be issued. Until receipt of the title-deed, no grantee will have the power of alienating any portion of the land granted. Alienations made in contravention of these rules will render the grant liable to be withdrawn.

MYSORE GOVERNMENT SAVINGS BANKS.

Principles.

1. His Highness the Maharaja's Government hereby sanction the introduction of the following Rules (*vide* Notification No. Fl. 1510—Gl. Fl. 280-04-38, dated 15th August 1906), in respect of Government Savings Banks in supersession of all existing Rules on the subject—

I.—In these Rules—

"Depositor" and "Deposit" bear the meaning which they bear in *The Government Savings Bank Act*, 1873.

"Account" means the account of a Depositor in a Government Savings Bank.

"Balance" means the balance at credit of an account.

II.—Any person may become a Depositor on his own behalf or on behalf of any other named person dependent upon him. Deposits may also be made by the managers of benevolent or other public associations, or by public officers, of money deposited with them *ex-officio* as security for the discharge of any public duty or for the fidelity of any public officer, or for the accomplishment of any public object.

III.—Subject to the provisions of these Rules, the Government of Mysore guarantees the repayment of every deposit with interest.

IV.—Without the sanction of the Comptroller, no account will be opened for less than one rupee and no person may deposit more than two thousand rupees in all between any 1st of July and the 30th June next following. The total amount which a depositor may have at his credit at any time, exclusive of interest for the current year should not also exceed five thousand rupees.

V.—Interest will not be allowed upon a smaller balance than (2) two rupees, or upon the excess in any balance over the highest multiple of (2) two rupees.

VI.—Interest will be allowed for each calendar month upon the minimum balance of the account between the close of the fourth day and the end of the month.

VII.—From 1st October 1906 till further notice, interest will be allowed upon deposits at the rate of one pie a month on every two rupees, which is equal to one anna for every wenty-four rupees, being at the rate of ($3\frac{1}{8}$) three and one-eighth per centum per annum. Without the sanction of the Comptroller, no higher monthly interest will be allowed upon any balance than Rs. 13-0-4, being the interest upon Rs. 5,000.

(1) In calculating interest, one anna will be taken as the interest for one month on every twenty-four rupees of the amount entitled to bear interest, and for broken sums below twenty-four rupees the following table will be used :—

Principal	Interest	Principal	Interest
Rs. a. p.	A. p.	Rs. a. p.	A. p.
2 0 0	0 1	14 0 0	0 7
4 0 0	0 2	16 0 0	0 8
6 0 0	0 3	18 0 0	0 9
8 0 0	0 4	20 0 0	0 10
10 0 0	0 5	22 0 0	0 11
12 0 0	0 6	24 0 0	1 0

Example.—Required interest for one month on Rs. 134-6-10—

		Rs. A. P.		As. P.
Interest on	... ...	120 0 0	is	5 0
Interest on	... ...	14 6 10	is	0 7
	Total ...	134 6 10		5 7

(2) In cases where the deposit at credit of an account exceeds Rs. 5,000, on account of such excess not having been withdrawn by the 1st of October 1906, interest will be allowed at the usual rate of $3\frac{1}{8}$% per annum only upon the prescribed maximum limit of Rs. 5,000 and at the rate of two per centum per annum on the excess over it.

In calculating interest on such excesses, eight pies will be taken as the interest for one month on every twenty-five rupees of the amount and for broken sums below twenty-five, the following table will be used :—

Principal	Interest	Principal	Interest
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
3 2 0	0 0 1	15 10 0	0 0 5
6 4 0	0 0 2	18 12 0	0 0 6
9 6 0	0 0 3	21 14 0	0 0 7
12 8 0	0 0 4	25 0 0	0 0 8

Example—Required interest for one month on Rs. 134-6-10 :—

	Rs. a. p.	As. p.
Interest on	125 0 0	3 4
Do	9 6 10	0 3
Total ...	134 6 10	3 7

VIII.—Every account will be made up on the 30th June, and the interest then due calculated under these Rules, added to the balance, upon which future interest will accrue. If an account is closed on any other date, interest due to the end of the preceding calendar month will be paid to the Depositor; but a Depositor who closes an account should not, ordinarily, be permitted immediately to re-open it except on payment of a fine varying at the discretion of the Treasury Officer from one to ten rupees.

IX.—Whenever a Depositor changes his residence, an account may be transferred free of charge to the Government Savings Bank in the district to which the Depositor is removing. Without the special permission of the Comptroller, an account may not be otherwise transferred from one Bank to another.

X.—A Deposit Book will be supplied to each Depositor in which the Treasury Officer will acknowledge every deposit. The personal attendance of a Depositor is not required; but no deposit will be received or payment made without the Depositor's Deposit Book, and the Government will not be responsible for any deposit the receipt of which is not acknowledged in a Deposit Book. The interest due to date will be entered in each Deposit Book the first time that it is produced after the 30th June. The first Deposit Book will be supplied free of charge, but if a Deposit Book is lost or injured, or if a closed account is re-opened, one rupee will be charged for a new book.

XI.—Without special permission a Depositor may not draw upon his account more than once in thirty days or open more than one account in his own name or in the name of any member of his family or for his own benefit or the benefit of any member of his family. The Comptroller must take precautions to prevent any transgression of this Rule, and, in particular, any employment of an account as an ordinary drawing account. This rule is not meant to prevent any one from opening more than one *ex-officio* or public account.

"XI. A.—Should under any circumstances an erroneous payment be made resulting in an overdraft, the interest due on the overpayment from the date of such payment to date of its recovery will be recovered from its deposit or whose account was overdrawn."

XII.—The Treasury Officer may refuse to open any account or may close any account for any sufficient reason; as, for example, because he thinks that the account is likely to be used or is being used contrary to the object for which Government Savings Banks are established, namely, the encouragement of saving. But every such refusal or closure, and the reasons for it, should be reported to the Comptroller.

XIII.—When the Treasury Officer thinks it proper to close any account, he shall give notice in writing to the Depositor of such closure. After the date of such notice, no deposit shall be accepted on the account so closed, and no interest shall be allowed upon the balance of the closed account after the end of the calendar month then current.

XIV.—The Government of Mysore reserves the right to alter or add to these Rules at any time.

XV.—A copy of the Government Savings Banks Act, 1873, and of these Rules, shall be printed in each Deposit Book delivered after this date, and the signature, or, if he cannot write, mark of the Depositor obtained to the annexed declaration before any deposit is accepted from him.

XVI.—These rules shall come into force from the 1st October 1906.

Declaration to be recorded in accordance with Rule XV.

I.....acknowledge that I have read these Rules (or, if he cannot read,—that these Rules have been read to me).

13. The name of a Depositor, when first written in the Depositor's Pass Book and on the index card, may be spelt in any form which is thought best; this spelling must, however, be strictly followed thereafter in all statements of deposits and other returns. It is not essential that the names of different persons bearing the same name should be spelt in the same way.

1. In the case of Native Depositors who sign in English, the spelling which they ordinarily use should be followed.

2. When accounts are opened by persons employed at a distance from their homes, their family as well as their temporary residence should be entered on the index card.

3. In the case of Native Depositors, the name of the father may be added on the index card and in the ledger heading of the depositor's account; but, if it is, the addition need not be made in the deposit lists.

Disposal of Index Cards.

14. The index card must be sent to the Comptroller's office unfolded, with the statement of deposits for the month in which the first deposit is made.

These cards will be sorted and kept in the Comptroller's office districtwar.

Minor's Accounts.

15. A person depositing money on behalf of a minor should be warned that such money cannot be withdrawn during the owner's minority except by a legal guardian—a term which includes the father, or, if the father be not living, the mother, of the minor. If it is desired that the minor shall be able to withdraw the money, the minor must deposit it himself, see Act V of 1873, Section 10.

16. When money is deposited *by another person on behalf of* a minor, the following words should be added to the notice printed at the end of the Pass Book:—

Deposits are repayable only to the properly-constituted guardian of the minor during his minority.

17. The Nazir of a *Civil Court* appointed by the Court as a guardian of a minor's estate cannot in that capacity become a Depositor in the Savings Bank. The proper place for his account is "Civil Court Deposits."

If an account is opened on behalf of a minor, the following entry should be made in the index card in the place for the Depositor's name :—

" .. ...(minor) son (or daughter) of.....through relative (or guardian).. .....;"

And the declaration on the reverse, which should be altered to read as follows, should be signed by the minor's relative or guardian :—

"I hereby declare that the District Savings Bank Rules have been read by (or to) me, and that I accept them as binding upon me.

"I further declare that I have no account on behalf of the minor named below at any of the District Savings Banks.

"I have opened this account with a first deposit of Rs. (in words)..... ... .and have received a Pass Book in which this sum is acknowledged.

"The..... 19

" Relative (or guardian) of.....(minor)."

18. If the person wishing to open an account is a woman, not accustomed to appear in public, her husband or agent may transact business on her behalf; but before an account can be opened on behalf of a woman, her husband or agent must produce a letter authorizing him to do so, signed by her or bearing her mark, and with the signature or mark attested by the signature of a witness known to the Treasury Officer to be trustworthy. The letter of authority should be pasted to the page of the ledger on which the account is opened.

In this case the following entry should be made on the index card in the place for the Depositor's name :—

" ..... wife (or widow) of.....through her husband (or agent)....."

And the declaration on the reverse, which should be altered to read as follows, should be signed by the Depositor's husband (or agent) :—

"I hereby declare that the District Savings Bank Rules have been read to the (or by the) Depositor and that she accepts them as binding upon her. I further declare that the Depositor has no account in her own name at any other District Savings Bank.

"I have opened this account on behalf of the Depositor with a first deposit of Rs. (in words)..... .....and have received a Pass Book in which this sum is acknowledged."

19. Puduvat funds of temples under the management of Government Officers,, where they consist of sums deposited by private individuals for the performance of specified service from the interest thereon, may be invested in the Government Savings Bank. But savings from Government Tasdik allowances or small receipts consisting of "Kanikes." etc., should not be deposited in the Government Savings Bank (*vide* Proceedings No. 5112-20—132, dated 6th December 1887).

Receipt of Deposits.

20. The amount tendered for deposit should be paid in with a chalan (Form 3) which will be signed by the Treasurer and made over to the Savings Bank Clerk, in order that the amount may be entered in the Journal of Deposits (Form 4) and in the Depositor's Pass Book. An acknowledgment will be given in the Pass Book, signed by the Head Accountant and by the Treasury Officer, for every sum deposited; the book being initialled by the Treasury Officer after comparison with the Journal, and delivered to the Depositor.

Fractions of a rupee should not be received in deposit.

Exception.—In case of semi-Government institutions fractions may be allowed.

21. The amount should be entered in the Depositor's Pass Book in words as well as in figures, the balance being struck after each deposit or withdrawal, as in the specimen below :—

Date	Amount of each deposit and withdrawal to be entered in words.	Amount deposited	Amount withdrawn	Balance at credit of the Depositor	Initials of Head Accountant	Initials of Treasury Officer
		Rs.	Rs.	Rs.		
1st Aug. 1885 ...	Deposited Rs. ten only ...	10	...	10	D	A. B.
3rd Aug. 1885 ..	Withdrawn Rs. five only...	...	5	5	D	A. B.

Repayment of Deposits.

22. To withdraw money a Depositor is required to present or send his Pass Book with an application for withdrawal (Form 6) properly filled in and signed; if he does not present himself at the Treasury for payment, the name of his agent or messenger should be entered at the foot of the form, and the signature of the agent or messenger should be placed beneath this entry. The application may be written in English or Vernacular at the option of the Depositor.

if a Depositor is unable to write, he should be required to attend at the Tr lly, if possible, and affix his mark or seal to the application; should he be unable nally, he may send his Pass Book with the application bearing his mark or seal y the signature of a witness of known respectability.

This application he will hand in, together with his Pass Book; the n will be made in the Journal of Withdrawals (Form 5) and in the list of Deposits

The production of the Pass Book and the signature of the Depositor awal, application may be dispensed with only in the case of payments made under mpe- tent Civil Court.

23. Reference will then be made to the Depositor's ledger account, an nent order has been written on the reverse of the application mentioned above l be paid to the Depositor by the Treasurer, and the repayment will then be enter ook and attested by the Treasury Officer, who should, when signing the Pass Boo htry in the Journal and hand the Pass Book to the Depositor.

The payment must in all cases be made at the Treasury. Treasury Of den to remit the amounts to Depositors.

Accounts.

24. The accounts to be kept are (besides the Pass Book, which rema of the Depositor)—

(1) The *Journal of Deposits*, containing all receipts in order of their

(2) The *Journal of Withdrawals*, containing all payments in order o ce.

(3) The *Ledger*, in which the receipts and payments are entered in a nt. for each Depositor.

Journal of Deposits.

25. The receipts must be posted at time of their occurrence in the Jo s in which a total should be regularly carried forward. At the end of the year left, in which the interest, after having been passed by the Comptroller's added to the deposits, and the balance struck by substracting the total of the re balance should then be carried forward to the next year, as the total balance du

Journal of Withdrawals.

26. The Journal of Withdrawals will be posted as the payments are made, a o a total should be carried forward to the end of each year.

1. The column added to this form and to form headed "Interest paid d accounts," requires attention, When an account is closed, interest is to be paid to the it- or to the end of the preceding month, and the whole amount repaid is to be entered the column "Amount repaid." As, however, the interest so paid, although credited to the individual Depositor's account, will not be entered as a receipt in the Journal of Deposits till the end of the year, it is necessary to keep a record of interest so paid, in order to ascertain the true balance of deposits, which of course is undiminished by such payments made during the course of the year. For this purpose, such interest will be entered separately in the column provided for it, and regularly carried forward to the end of the year.

2. It must be borne in mind that the interest, at the commencement of the new official year, becomes a part of the principal, and hence no payment should be shown in column "Interest on closed accounts," unless, besides repaying the original deposits and interest for past years, there is also interest paid for a portion of the currrent year; in short, the column is intended only for the interest of the current year which has not yet been added to principal.

Ledger.

27. The Ledger (Form 7, which will be supplied in printed sheets) must be posted from the Journal of Deposits and of Withdrawals as soon as practicable after each transaction takes place.

It is desirable that the Treasury Officer, when attesting Depositors' Pass Books, should take the opportunity of satisfying himself, by reference to the Ledger, in some cases every day, that it is properly kept, and that the balances in the Ledger and in the Pass Books agree.

Addition of Interest.

28. At the end of every month the Savings Bank Clerk must go through the Ledger, and fill up the "Principal or Lowest Balance" and "Interest" columns of every current account. In the column headed "Principal or Lowest Balance" should be entered against each month the minimum balance of the account between the close of the fourth day and the end of the month—see Annexure C.

1. If any difficulty is experienced as to the manner of filling up this column, an account should be sent on a spare Ledger form to the Comptroller's office for instructions; care must be taken that the clerk thoroughly understands this point, as the accuracy of the interest calculation is dependent on the correctness of the amount in the "Principal or Lowest Balance" column.

2. On these spare Ledger forms (printed on common paper) copies of any particular accounts may be sent to the head office for verification, if there be any difficulty in tracing discrepancies.

29. Interest, which is 3½ per cent per annum though added annually to principal, will be calculated monthly and entered in the "Interest" column. The rule for calculation is given in No. VII of the Rules quoted under Rule 1, and an extended Interest Table will be found in Annexure C. But it should be remembered that no higher monthly interest will be allowed upon any balance than Rs. 13-0-4 which is the interest upon Rs. 5,000.

The rule for calculating interest is as follows :—One anna will be taken as the interest for one month on every twenty-four rupees of the amount entitled to bear interest, and for broken sums below twenty-four rupees, the following table will be used :—

Principal			Interest		Principal			Interest	
Rs.	a.	p.	As.	p.	Rs.	a.	p.	As.	p.
2	0	0	0	1	14	0	0	0	7

Annual Closing of Ledger.

30. At the end of the year each current account will be closed, by making a total of the deposits without the opening balance, entering thereunder the opening balance and interest for the year. Then the deposits, opening balance, and interest should be added together, and from the total the repayment should be deducted. The remainder will be the closing balance and will agree with the last figure in the Ledger column "Balance after each transaction," *plus* the total of the interest for the year.

1. Very active measures must be taken towards the close of the year to complete the interest calculations. As no interest is allowed on deposits made after the close of the fourth day of June, the principal and interest for June (subject only to correction in respect of repayments in June) can, immediately after the close of the fourth day in June, be entered in pencil and the interest totalled in pencil. In posting repayments in June, any of these calculations would, if necessary, be altered.

2. If this be done, it is not probable that there will be any difficulty in closing the accounts of all Depositors by the 15th of July ; if possible, this should always be done, and the nterest for the past year written in the Depositor's Pass Book and added to his balance on the first occasion of his presenting his Pass Book after the annual statement has been passed and returned by the Comptroller's office.

Intermediate Closing of Accounts.

31. When a Depositor wishes to close his account in the course of the year, interest to the end of the preceding month is to be credited to the account, and paid to the Depositor with the principal ; otherwise, no payment on account of interest for the *current year* should be made *within* it. (See notes under Rule 26.)

1. The fact of an account having been closed must be noted on the Journal of Withdrawals (Form 5), and the Pass Book must be surrendered and kept for record in the Treasury.

2. If after an account is thus closed and Pass Book surrendered, a petty error in calculation of interest is discovered, the correction of which leaves a small balance in the account, the Treasury Officer should, after having, if possible, informed the Depositor, and after six months have elapsed, draw the amount on his own receipt and pay it into the Treasury as a "Miscellaneous receipt," making a note in the Savings Bank Ledger of the transaction. Such an amount may at any time be refunded under sanction of the Comptroller.

Returns to Head Office.

32. The particulars of all receipts and repayments of deposits are to be entered in prescribed forms and must be sent to the Comptroller's office *not later than the 10th of every month.* These monthly lists should contain the transactions of a whole month.

The applications of withdrawal must accompany the Journal of Withdrawals sent to the Comptroller's office in support of the payments made.

Dead Accounts.

33. The following accounts are to be considered "dead accounts," and are to be transferred to the Comptroller's office by the procedure described in the next two paragraphs :—

Accounts, the balance of which	and in which there have been no deposit, and no repayment for—
does not exceed Rs. 10	3 complete years.
does not exceed Rs. 100	6 " "
exceeds Rs. 100	12 " "

unless, in the last case, the Treasury Officer has reason to believe that a claim is likely soon to be preferred to the balance.

34. At the end of every year, after the completion of the interest calculations, and along with the writing up of the closing balances in the ledger accounts (see end of Rule 30), the balance of such accounts as are to be treated as "dead" at the end of the year, under the previous rule, should also be written up in the ledger, but under the line showing the repayments of June, as "transferred to Comptroller's office as a dead account." And each such balance will be entered in column 7 (*b*) of the annual statement of Savings Bank Deposits, as an amount withdrawn by transfer to Dead Account. The closing balances in these accounts will therefore be nil, and the account will cease to be carried forward in the new year. The total amount at credit of all such dead accounts will be entered as a repayment under June 30th, in the Journal of repayments, and described as "transferred to Comptroller's office as per column 7 (*b*) of the annual Statement of Savings Bank Deposits." No entry of this is required in the list of repayments, nor does the transaction pass through the Treasury.

The interest must be calculated, under the usual rules, up to the end of June, as the transfer to Comptroller's office is not a "repayment in June" such as to prevent credit of interest for that month.

35. In the Comptroller's office these accounts will be brought on to a new ledger in the following form :—

Serial No.	Original No. of Account / Number	Name of Depositor	Date of transfer to dead account	Amount of dead balance	Repaid in	Balance on June 30	Repaid in	Balance on June 30	And so on for as many years as convenient

The interest due on these balances will not be calculated, or added, so long as the account is on the ledger at the Comptroller's office.

Reopening a Dead Account.

36. If, after an account is thus transferred, the Depositor makes another deposit, producing the original Pass Book, or his legal representative makes a claim to repayment which, but for the transfer of the account, the Treasury Officer would admit, the Treasury Officer will apply to the Comptroller's Office for repayment of the whole balance, with arrear interest, whereupon an order in the following form will issue to the Treasury Officer :—

OFFICE OF THE COMPTR.,
MYSORE GOVERNMENT.,
BANGALORE, DATED.....190 .

To
THE DEPUTY COMMISSIONER,
TREASURY DEPARTMENT,
DISTRICT.

Register No. of Dead Account—
Original No. of Account—
Depositor's name—
Date of transfer to Dead Account—
Amount of balance transferred to Dead Account Rs.
Interest on account from to Rs.

of { Taluk or Dt. Treasury.

His No. dated applying for sanction to revive the marginally noted Savings Bank Dead Account.

As requested in the above, has the honor to authorize the revival of the account in question, and to inform that the amount of the deposit and its interest up to end of the preceding year as noted in the margin should be shown in his Savings Bank Journal.

Comptroller.

N. B.—This amount is not to be included in the total of the monthly list of deposits but entered, for the information of this office, below the total (see para 36 of the Mysore Government Savings Bank Rules).

37. With the amount thus advised as due on July 1st, the account will be opened anew in the Depositor's name, and under the old number. The entry in the Journal of Deposits will bear the actual date of the credit, but the account in the Ledger will show the amount in a line below the "Balance brought forward" and above the receipts of July as "Received from dead account on (*date*)," in order that the interest calculations for the current year may be made in the same way as if the amount had been an opening balance.

After the account is thus opened in the Ledger, the whole or any part of the amount may be repaid, or the account closed, under the usual rules.

Annual Return and Adjustment.

38. As soon as practicable after the close of each year, a statement (Form 9) prepared from the Ledger must be sent to the head office, showing the *state* of each Depositor's account open at any part of the year.

The totals of the columns for opening balance, deposits, and repayments, should be proved with the Journals.

The entries under "Repayments," which are transfers of dead accounts to the Comptroller's Office (Rule 34), and those under "Deposits," which are reopening of such accounts (Rule 37), should be indicated by a *D* written in red ink.

39. This form will, after examination and approval in the Comptroller's Office, be returned to the district with an order allowing the interest claimed, which will thereupon be entered in the Journal of Deposits.

1. The total amount of interest is to be added in a lump sum to the balance of the preceding year in the Journal of Deposits (*vide* Rule 24); also, of course, individually in each Depositor's account; but it should not be shown in the monthly statements submitted to the Comptroller's Office.

2. No charge on account of interest is to be made in the Treasury accounts, which will show only the amounts received from, or paid to, the Bank. The necessary adjustment will be made in the books of the Comptroller.

Transfers of Accounts.

40. Transfers of accounts from one District Savings Bank to another are permitted in the following manner:—

(*a*) The Depositor should submit his Pass Book either personally or by letter. The Treasury Officer should write the following endorsement in the Pass Book immediately after the last entry: "Transferred to the Savings Bank at...." He should sign the endorsement and make the necessary entries in his withdrawal sheet and Depositor's account. He should send an advice with a copy of the Depositor's account for the current year, as well as his signature taken on a separate piece of paper, or his application in original (according as the Depositor appears personally or not) to the Bank to which the transfer is made, noting the fact of the transfer and the name of the Bank to which transfer is made on the withdrawal statement which he will send to the Comptroller's Office. On receipt of the Advice of Transfer (Form 8) the receiving Bank should open the account immediately in its Savings Bank books free of any charge for Pass Book, and attach the advice to the deposit statement which it sends to the Comptroller's Office. The receiving Bank should allow interest on the transferred amount for the period for which it may have been due at the transferring Bank.

(b) So much of the transferred amount as was on account of deposits made in the preceding year should be excluded in calculating the limit of Rs. 2,000 assigned by Government for deposits made in one official year. But deposits made in the current year should not be excluded.

40A. When a Depositor's account is transferred from one District Treasury to another, or from one Taluk Treasury to another, it should be treated as a new account in the receiving Treasury and should have a new No. assigned to it in the Savings Banks Ledger and Pass Book, the former No. being struck out.

(a) No Savings Bank account will be transferred from one taluk to another of the same District except under the order of the District Treasury Officer.

(b) The Depositor must deliver up his Pass Book to the Amildar of the Taluk (A) in which the deposit stands, with an application stating to what taluk (B) he wishes it to be transferred. The Amildar (A) will send the application and the Pass Book to the Treasury Officer of his District, who will close the account by entering in the Pass Book after the last entry the amount of balance at credit with the words "Transferred to the Taluk Treasury at ....." signing the entry. He will then send the Depositor's application and Pass Book with an order to the Amildar (B) to open an account in the Depositor's name (with a new No.), by copying out from the Pass Book the balance at close of last year and the items of receipt and withdrawal for the current year, and to credit the balance transferred to the Depositor in the Ledger as well as in the Taluk C account of the day as a Savings Bank deposit transferred from (A), and also to charge it on the other side of the C account under Taluk Remittances. On application the receiving Taluk Treasury (B) will deliver the Pass Book to the Depositor.

(c) The District Treasury Officer must also direct the transferring Amildar (A) to charge the amount of balance in his C account under Savings Bank Deposits (transferred) and credit it under Taluk Remittances, and to refer the Depositor to the receiving Amildar (B) for his Pass Book.

(d) When a transfer is wanted from a Taluk in one District to a Taluk in another, the transferring Amildar (A) will send the application and Pass Book to the District Treasury, which will debit the balance under Taluk Remittances and remit the amount by a Public Service Transfer Receipt with the Pass Book to the other District Treasury, which will send them on to the Taluk (B) to which the transfer is to be made. Both Taluk Amildars (A) and (B) will be instructed by the respective District Treasuries to make the requisite entries in their C accounts, as well as in the Savings Bank ledgers, prescribed above.

(e) District Treasuries will, for convenience of reference, keep an alphabetical index of all Depositors' names borne, on the general ledger of the District. A similar index will be kept in every taluk of the names of the Depositors borne on its books if they are numerous.

1. A Depositor may have his account transferred free of charge to any District or Taluk Savings Bank; provided that the account shall have been in existence for three months previous to the date of transfer.

2. No transfer should be made from one District or Taluk to another during the latter half of June.

3. The amount received by transfer should pass through the Savings Bank Journals.

Decease, Marriage, Minority, and Lunacy of Depositors.

41. The cases of decease, marriage (of women), minority, and lunacy of Depositors are provided for by Act V of 1873. The rule for minors is also stated under Rules 15 and 16.

42. When repayment is made of a deposit belonging to the estate of a Depositor deceased, the List of Withdrawals must be supported by a certificate from the Treasury Officer, setting forth that probate of the deceased's will or letters of administration to his or her estate, or a certificate granted under Act XXVII of 1860 in favor of the actual payee, has not been produced before him.

Form is prescribed for certificate under Section 8 of Act V of 1873 (Savings Banks Act) required for proceedings regarding deceased Depositors' estates.

43. When a female Depositor changes her name on marriage, the name must be altered in the Ledger under the initials of the Treasury Officer, and a fresh card, signed with the new name, must be sent to the Comptroller's Office for record,—a note being made on the reverse (signed by the Treasury Officer) of the reason for so doing.

Miscellaneous.

44. In the Savings Bank forms and accounts should be entered only receipts and repayments on account of deposits; other items, such as sale proceeds of Bank Pass Books to Depositors who require new books, being noted separately at foot of the list of receipts, below the total. Such items should also be separately paid into the Treasury for credit to Government (Miscellaneous Receipts), and not be mixed up with the Savings Bank Accounts.

45. Recoveries of overpayments must be passed through the Journal and Ledger and the Monthly List of Deposits.

46. None but printed forms may be used for the purpose for which printed forms are supplied.

the Treasury Officer of such Bank may pay the said sum of money to any person appearing to him to be entitled to receive it, or to administer the estate of the deceased.

Payment to be a discharge.

5. Such payment shall be a full discharge from all further liability in respect of the money so paid.

Saving of right of creditor.

And any creditor or claimant against the estate of the deceased may recover his debt or claim out of the money paid under this Act or the said Act No. XXVI of 1855, to any person, and remaining in his hands unadministered, in the same manner and to the same extent as if the latter had obtained letters of administration of the estate of the deceased.

Rules for the Regulation of House-connections from the Vanivilas Water Works.

1. The supply of water from the Vanivilas Water-works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purpose whatsoever. A supply of water for domestic purposes shall not include a supply of water for horses or for washing carriages, where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture or business, or for fountains, or for any ornamental or mechanical purpose, or for watering gardens or roads. Water which has been used for washing, bathing or other domestic purposes, may be collected and used for gardening or other non-domestic purposes, but on no account should pure water be drawn from the taps for these purposes; provided that, with the special permission of the Water-supply Department, water may be taken from the fountains and hydrants for watering public roads on special occasions.

2. Until further orders, private connections to houses from the Vanivilas Water Works will be limited to houses whose annual rental value is *not less than Rs.* 120 (one hundred and twenty), and to localities where the capacity and pressure of the public water mains permit of such connections being made without detriment to the street service.

3. For every house-connection there shall be provided and maintained in due working order, a water-meter of approved size and description for the accurate gauging of the water consumed, provided that the Water-supply Department may, on the ground of cost, dispense with the erection of water-meters in the case of very small houses not likely to consume more than the free allowance referred to in Rule 7 below.

4. All pipes, taps, water-meters and works required for a house-connection, shall be of such dimensions, character, and material, as the Water-supply Department may approve, and they shall always be under the control of the Water-supply Department and shall in no way be interfered with by any others; and they shall be provided, renewed and repaired, by the Water-supply Department. The cost of all pipes, taps and works, required for a house-connection, shall be borne by the house-holder applying for, or desiring, the connection, who shall pay in advance the estimated cost. The whole should be fully paid for before the house-connection is permitted to be used. The Water-supply Department will supply, fit up and maintain, the meter at its own cost.

5. The Water-supply Department shall determine the size of each house-connection with due regard to the capacity and pressure of the public water mains of the locality.

6. The house-connection in any case is liable to be stopped, or the supply reduced by the Water-supply Department, without any notice or assigning any reason. But when the stoppage is over an extensive tract, or is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances, will be given by the Water-supply Department. If the Water-supply Department has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, it shall be its duty to stop such connection forthwith under this Rule.

7. The quantity of water which a house-holder will be allowed to draw from his house-connection (free of any charge other than the general water-rate to be assessed upon the annual rental value of his house and premises), shall be regulated in accordance with the scale hereunder :—

For every Re. 1 (one rupee) of the rental value of the house and premises, the authorized free allowance will be 160 gallons, but in no case such free allowance shall be less than 3,000 gallons per month.

8. Any house-holder who is found to have used in any quarter, ending with the 31st March, 30th June, 30th September or 31st December, of any year, a quantity of water in excess of the quantity allowed under the last preceding rule, shall pay for such excess a price calculated at the rate of 12 annas per every 1,000 gallons or fraction thereof, used in excess of the authorized allowance.

9. Rules 7 and 8 shall not be regarded as permitting the use of water drawn from a house connection for other than domestic purposes.

10. All payments due under these rules shall be recovered by the President of the Mysore City Municipality, upon requisition of the Water-supply Department, under rules for recovery of Municipal revenue.

11. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules, or to abolish altogether the system of house-connections to be established thereunder.

12. Every house-connection shall be regarded as established, subject to the conditions and regulations contained in the rules as above, or as they may be altered or modified for the time being by order of the Government.

13. The foregoing rules shall apply *mutatis mutandis* to all public institutions, such as schools, temples, mosques, churches, public offices, the supply allowed in each case free of charge being determined by the Water-supply Department, and any excess used over and above such supply, being measured by water-meters and paid for by the institutions concerned at the rates prescribed in Rule 8 above.

IV. That their dedication to the use of the public, or of a section of the public as the case may be, be posted up in legible characters in English and Kanarese.

15. The Water-supply Department shall cause notice boards to be put up at particular fountains indicating that water-carts are allowed to take water therefrom; and after 1st January 1907 no water-cart will be allowed to take water from any fountain at which no such notice board has been put up.

16. The expression "Water-supply Department" as used in these rules shall, until further orders, mean the Chief Engineer and Secretary to the Government of Mysore in the Public Works Department, and any officer deriving his authority from him.

N. B.—Steps are being taken in the matter of appointing successors to the deceased members.

I. Read the details of accounts of receipts and expenditure for the months of October November and December 1905.

Recorded.

II. Read Government Order No. 9079-86—L. B. 315-05-2, dated 5th March 1906, requesting the Board's opinion as regards the proposal of the Vice-President of the Mysore District Board to exempt the carts of the agriculturists from the payment of tolls.

The Board are of opinion that it might be inconvenient to make that exemption. To distinguish the carts of agriculturists some permanent mark would have to be put upon them and if an agriculturist chooses to sell such a cart, the purchaser, though no agriculturist, could sail under the color of one. Frequent loans of such carts might help to defraud the tolls to the mutual advantage of the owner and barrower. A certificate of exemption in lieu of the mark on the cart would not improve matters as the certificates too can be loaned. The particular reasons that induced the recommendation of the Mysore District Board are not apparent from the Government Order under reply.

III. Read Government Order No. 9839-43—L. B. 81-05-6, dated 23rd March 1906, calling for the opinion of the President and that of the Board in the matter of introducing the rules proposed by the President of the District Board, Mysore, for exempting the agriculturists from payment of tolls and for regulating the traffic on the Mysore-Manantoddy road in the Heggaddevankote Taluk.

Resolution.—The Board are of opinion that the proposed rule regarding a composition fee may be adopted. With regard to the carts of persons whose primary occupation is agriculture, the opinion given in reference to the order of 5th March above, applies here also. Undersigned agrees with the Board and would add with reference to the carts of agriculturists that it is a vexed question at every jamabandi, involving assertions by the village officials and denials by the cart-owners as to whether the cart was primarily used for agriculture or for trade. Every case involves a reference to the land possessed by each objecting individual in order to judge from its extent whether the cart could be considered to be used more for agriculture or more for trading. In undersigned's opinion the exemption from the cart tax is sufficient concession. To furnish a list of agriculturists to the toll-gate keeper may not suffice for reasons given to the other Government Order. It is not possible for him to remember the faces of all the agriculturists and be able to identify them ; and even if that becomes possible, there will be trouble when a relation or servant tries to take the cart through the gate.

IV. Read Secretary's docket No. 10230—L. B. 387-05-2, dated 2nd April 1906, requesting that the matter of the transfer of Hutridurga Sante to Nittur in Kunigal Taluk may be placed before the Taluk and District Boards and that copies of their resolution may be submitted ; and Kunigal Amildar's report No. 622, dated 25th April 1906, submitting the resolution of the Taluk Board on the subject.

Resolution.—As the more important points have not been considered, the subject will be remitted to the Taluk Board for reconsideration. It is observed that the Amildar was not able to preside at the meeting.

V. Read Secretary's docket No. 10414—L. B. 432-05-1, dated 16th April 1906, forwarding for consideration of the Board, D. R. A. subject in the matter of providing accommodation for sick persons by constructing a ward at Maddagiri and the reply of Government thereto ; and letter No. 304, dated 13th September 1905, from the District Medical Officer, Tumkur District, with reference to the same subject stating that there is an in-patient ward attached to the dispensary at Maddagiri and it is not much used by the public and that additional accommodation is useless and unnecessary.

Resolution.—The existing ward is not used as much as it should be and no additional accommodation is necessary.

VI. Read Secretary's docket No. 10415—L. B. 433-05-1, dated 16th April 1906, forwarding for necessary action the D. R. A. subject representing that a road from Maddagiri to Hindupur may be laid out, that a musafirkhana at Kodigenhalli may be constructed and that, if,

necessary, a toll may be levied on carts to meet the cost required for laying out the road and the reply of Government thereto.

Resolution.—The first two questions were considered at the meetings of the 7th August 1905 and 8th February 1906, and the Board's resolution was recorded by Government in Order Nos. 2256-6—L. B. 13-05-3 and 2341-3—L. B. 19-05-2, dated 31st August 1905 and 5th September 1905, respectively. As there is no intention now of converting the cart-track into a regular road it is premature to consider the question of establishing tolls.

VII. Read Secretary's docket No. 10416—L. B. 420-05-1, dated 12th April 1906, forwarding for necessary action D. R. A. subject in the matter of opening a road from Halkur to Honnavalli and the reply of Government thereto.

Resolution.—On receipt of the estimate which is being made by the Executive Engineer, Tumkur Division, the matter will be considered.

VIII. Read Secretary's docket No. 10417—L. B. 419-05-1, dated 12th April 1906, forwarding for information D. R. A. subject *in re* opening a Local Fund Dispensary at Kodigenahalli and the reply of Government thereto.

Resolution.—The Taluk Board will be asked to consider and give their opinion as to whether Kodigenahalli admits of a periodical visit by the Hospital Assistant and if there is a suitable building there where he can examine patients and prescribe.

IX. Read Secretary's docket No. 10520-7—L. B. 422-05-1, dated 11th April 1906, forwarding for information D. R. A. subject *in re* the increase of salaries of the officials of the District Board President's Office establishment, etc., and reply of Government thereto.

Resolution.—Recorded.

I. Consideration of accounts of receipts and expenditure with the auditor's report and other statistics for April 1906 and Comptroller's audited accounts for January and February 1906.

Resolved that in order to put a stop to the smuggling of tobacco into the Mysore Town the old Rahadari system be re-introduced and that Government be addressed on the subject.

II. Government Proceedings No. 11208-10—Ml. (236-05)-12, dated 30th April 1906, informing that the countergrading of the Purniah's Nala may be carried out by the Trust Board after making provision for the work in the next year's budget of that Board.

Recorded.

III. Government Proceedings No. 13049-59—Leg. 21-05, dated 1st May 1906, about the temporary introduction of compulsory vaccination to such large and important centres as Bangalore, Mysore, etc.

Recorded.

IV. Vice-President's memo dated 30th April 1906, regarding the removal of Chikka Holageri which is only a few yards from the old Dodda Holageri recently removed by the Trust Board.

Resolved that a recommendation be made to the Chairman of the Trust Board to remove this Chikka Holageri to the north of the Vanivilas road, to the locality near the new Holageri.

V. Government Proceedings No. 10950-63—Ml. (25-05)-10, dated the 25th April 1906, authorizing the Comptroller to pay Revd. Sawday of the Wesleyan Mission the building grant of Rs. 25,000 sanctioned in Government Proceedings No. 4283-9—Ml. (35-05)-2, dated 8th January 1906, for the Mission Hospital for women and children now under construction in the Mysore City.

Recorded.

VI. Results of auction sales for the year 1906-07 of toll-gate contract, market daily fees, sale of grass, manure and amarayi, etc., and tender for supply of kerosene-oil required for Municipal lights during 1906-07.

Resolved that the auction be confirmed with the exception of the sale of Devaraj Mohalla market which, the Board is of opinion, requires some improvement and will be sold again under certain conditions to be laid down after meeting on the spot. Resolved that Hajee Ismail Sait's tender for chester oil at Rs. 2-8-0 per tin be accepted.

VII. Remission statement of irrecoverable arrears of house and mohatarfa taxes on account of death, desertion and poverty, etc.

Resolved that the arrears amounting to Rs. 1,588-13-3 from the Mohallas of Mandi and Chamraj from the above source be recommended to Government for remission, as there appears no chance of recovering the same.

VIII. Municipal Commissioners Messrs. M. C. Rangiengar and others' proposition to the effect that the members of the Board have a right in accordance with the provision contained in Section 11 of the Municipal Regulations to ask the Municipal Executive as to how the complaints brought by one subordinate against another have been enquired into.

Mr. Rangiengar now explains that the Kanarese statement is capable of a different interpretation and what was really required is that the information now asked for in the above proposition be granted.

Resolved that individual Commissioners are entitled to obtain information on any subject connected with the Municipality except in cases when the President considers it necessary to withhold such information.

IX. Government Proceedings No. 11708-10—Ml. (546-05)-2, dated 12th May 1906, forwarding statements showing receipt and expenditure relating to the City Improvement Funds for the half year ended 31st December 1905.

The Board take this opportunity of bringing to the notice of the Executive Engineer the bad state of the Banawasi-Yeslurpet road, particularly the portion passing through Yeslurpet itself and suggest that this unexpended mileage allotment of the Hanbal-Devarunda road be transferred for the improvement of this road and the Bage-Belur road which is an important road of communication between Manjarabad and Belur Taluks and requires frequent repairs.

Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

Non-official Members.

1. Dr. J. D. O'Donnell, Acting Chief Medical Officer.
2. R. H. P. Bullen, Esq., Superintendent, Ooregum Co. (on leave).

1. Read and confirmed the minutes of the last meeting.

3. Read and sanctioned estimates for certain urgent works exceeding Rs. 200 put in hand in anticipation of the Board's sanction.

5. Read Government Proceedings No. 12569-70—L. B. (458-05), dated 8th June 1906, regarding the increase of salary to office establishment.

Resolved unanimously, in view of the enormous expansion of the Board's revenue and work and the costliness of the locality, that the Government be again requested to reconsider their order, and to accord sanction to the small increase of salaries to the existing clerks as per appended proposition statement.

6. Resolved that the kind of type-writer to be purchased for the use of the Sanitary Board, be a "Smith Premier."

7. Resolved that a sum of Rs. 300 be sanctioned as grant-in-aid towards the Ooregum village school, to which the villagers have made voluntary subscriptions of over Rs. 400 and towards which the Educational Department have kindly assisted by a grant of Rs 150.

8. Read docket No. 2100—P., dated 18th April 1906, from the Senior Surgeon suggesting that a provision of Rs. 15,000 in the Medical budget for the year 1906-07, providing necessary funds for the up-keep of the Plague Hospital and Camp, Kolar Gold Field, be borne by the Sanitary Board.

Resolved that the Board do not consider it fair that they should by this arrangement be made to bear the cost of plague work on the Field, an expense from which last year they were specifically exempted.

The alteration of the title from that of Plague Hospital to Infectious Disease Hospital, does not alter the fact, that there will be wards and observation sheds, with a nursing and ward establishment, totally apart from the wards and establishment maintained for other infectious diseases.

The Board are prepared to continue to bear the cost of these, but urge that they are not in a position to also adequately undertake this cost of Plague Administration in their area.

9. Resolved that Government be requested to sanction the retention of the existing Avenue establishment now maintained at a monthly cost of Rs. 34 for a further period of five years.

10. Resolved that Government sanction be obtained for the permanent maintenance of the present temporary four ward boys for Infectious Disease ward.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1906.

Circular No. T. A. 1096—194, *dated* 14—18*th August* 1906.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1906, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i.e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the

previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st November will not be discharged at the Treasuries unless accompanied by a certificate as follows:—

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore,* 27*th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903 (published at pages 742-3 of Part II of the *Mysore Gazette,* Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1906, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i.e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st November will not be discharged at the Treasuries unless accompanied by a certificate as follows:—

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore,* 27*th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903, (published at pages 742-3 of Part II of the *Mysore Gazette*, Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

I. The following Government orders were read and recorded :—

(1) Government Order No. 9267-308—L. B. (159-05)-85 of the 9th March 1906, reviewing the District Fund Reports and Accounts for the year 1904-05.

(2) Government Order No. 12295-307—L. B. (375-05)-2 of the 29th May 1906, sanctioning the District Fund Budget Estimates of the Mysore District for the year 1906-07.

(3) Government Order No. 393-403—L. B. (494-05)-2 of the 15th July 1906, issuing instructions *re* the sanctioning of the appropriation of funds from one head to another under the same major head of the District Fund budget.

II. Read Government Order No. 12236-49—San. (200-05)-2 of the 28th May 1906, passing orders on the notes of the sanitary inspection of the Shimoga District by Mr. Palpu, Personal Assistant to the Sanitary Commissioner.

Resolution.—Recorded with the observation that Kanarese copies of the same be applied for if available for distribution among the District Fund Board Members.

III. Read Government docket No. 10348—L. B. (426-05)-1 of the 6th April 1906, calling for the Board's opinion regarding the construction of bridges on some "hallas" in the Seringapatam-Sivasamudram road.

Resolution.—The Executive Engineer having roughly estimated the cost of work at about Rs. 40,000, the Board does not see its way to undertake any of these works in its present state of finances nor does the Board see any urgent necessity therefor.

IV. Read Government docket No. 11682-5—L. B. (294-05)-10 of the 10th May 1906, calling for the Board's views in the matter levying fees on the notice of demand for taxes, issued in Village Unions.

Resolution.—The Board approves of the proposal made in the late President's letter No. 664 of the 28th December 1905, addressed to Government, *viz.*, that a fee of one anna be levied upon each notice of demand issued in the Village Unions.

V. Read Government docket No. 13092—L. B. (481-05)-2 of the 26th June 1906, requesting to be informed how the cost of removal of dampness from the Manchanahalli village in the Yedatore Taluk, will be met.

Resolution.—The Board agrees to bear only the cost of digging the trench around the village estimated to cost Rs. 630, and prays Government that the contribution amount paid by the holders of wet lands, which will now be permanently converted into dry, be refunded from the State Funds, as the amount of contribution was credited to the latter and not to District Funds.

VI. Read Government Order No. 12792-4—Med. (260-05)-4 of the 14th June 1906, requesting to be informed whether the District Board is willing to bear one-half (Rs. 423) of the charge of constructing a compound wall for the dispensary at Mandya.

Resolution.—The present financial condition of the Board does not permit of a work of this nature being undertaken by them.

VII. Read Government docket No. 41—L. B. (429-05)-3 of the 4th July 1906, desiring to know whether the District Board would bear half the cost of a Native Vaidyasala proposed to be opened at Talkad in the T.-Narsipur Taluk.

Resolution.—Adjourned to the next meeting pending receipt of further information upon this point.

VIII. Read correspondence ending with the Mysore Division Executive Engineer's docket No. 549 of the 10th May 1906, forwarding an estimate amounting to Rs. 1,995 for constructing a tunnel of six vents across a "halla" on the Balamuri-Balagola road.

Resolution.—The cost of the present estimate being prohibitive, the Executive Engineer may be requested to prepare an alternative estimate for a road dam or an Irish drain.

IX. Read docket No. 202 of the 20th July 1906, from the President of the Hassan District Board, requesting to be informed whether the Mysore District Board is willing to share the cost of constructing a bridge across a "halla" running into the Cauvery River near Karalapura in the Arkalgud Taluk, which is roughly estimated at Rs. 10,000.

Resolution.—The Board consents to contribute not more than a third of the cost as at present estimated.

X. Read Hunsur Group Assistant Commissioner's Yadi No. 92 of the 16th May 1906, requesting sanction to hold a "shandy" at Kandalike in the Heggaddevankote Taluk.

Resolution.—The Board approves of the proposal.

XI. Read T.-Narsipur Taluk Amildar's report No. 532 of the 20th May 1906, forwarding a copy of Taluk Board's proceedings, recommending that the pay of the sweeper of the Talkad lodge may be raised from Rs. 5 to Rs. 6 per mensem.

Resolution.—The increase of pay recommended may be given.

XII. And the President's order, dated 26th July 1906, to the Taluk Amildar, sanctioning two of the above three estimates, at a cost of Rs. 162, in anticipation of the Board's approval.

The Board also accepts the explanation of the Amildars for the large lapse of grants, which was owing to the failure or want of rains in the proper season.

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore, 27th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903, (published at pages 742-3 of Part II of the *Mysore Gazette*, Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

(b) Read letter dated the 22nd July 1906, from Mr. W. L. Crawford, stating that he has been requested by the South Mysore Planters' Association, to place the subject of reducing the rates of toll on the Hassan-Arsikere road, so that they may be the same as those at the Belur bridge toll-gate.

Resolution.—Resolved that the Board, being of opinion for reasons represented, that the toll rates of Rs. 2 and 1 for four-wheeled and two-wheeled carriages, respectively, appear too high and that a reference be made to Government for reduction of these two rates to eight annas and four annas, respectively, with provision for levying only half of those rates, when such carriages are unladen, since such lower rates only are levied at the Hole-Narsipur and Belur bridges toll-gates.

XIII. Read correspondence ending with the Senior Assistant Commissioner's docket No. 105, dated 22nd July 1906, in the matter of the sale of the inspection lodge at Arehalli, to Mr. Habibulla Sab, who has promised to convert the same into a charitable musafirkhana.

Read docket No. 6537, dated 16—17th May 1906, from the Senior Surgeon and Sanitary Commissioner in Mysore, forwarding a copy of the Hassan District Deputy Commissioner's remarks made in the Visitors' Book of the Saklespur Dispensary, with the remarks of the Senior Surgeon thereon, in the matter of increasing dieting charges for the dispensary.

Resolution.—Resolved that the Board fully recognise the real necessity for increasing the dieting charges at the Saklespur Dispensary to Rs. 10 per mensem and that it be suggested to the Senior Surgeon that the extra cost be met from the savings annually accruing under this head owing to a circular order, which, it is believed, directs that the monthly expenditure at each other dispensary should be restricted to Rs. 3 instead of Rs. 5 per mensem, except in very urgent cases.

XVII. (1) Read Executive Engineer's docket No. 149, dated 19—23rd May 1906, forwarding a statement of dispensary buildings requiring repairs during the year.

XVIII. Read Executive Engineer's docket No. 164 dated 1—2nd June 1906, requesting a reply as to whether the District Board can afford to pay Rs. 2,000 towards the cost of constructing a bridge over the weir of Kalasinkere tank, Belur Taluk.

XIX. Read Executive Engineer's dockets Nos. 178 and 181, dated 7—13th and 13—14th June 1906, respectively, forwarding estimates amounting to Rs. 122 in all, for providing monsoon tatties to certain 3rd class travellers' bungalows in the Manjarabad and Belur Taluks during 1906-07.

XX. Read Executive Engineer's docket No 447, dated 17th—21st July 1906, requesting the transfer of Rs. 204 being the pay of watchmen of certain Inspection Lodges to A. Public Works.

XXI. Read Executive Engineer's docket No. 464, dated 16th July—1st August 1906, forwarding for countersignature an estimate amounting to Rs. 1,000 for providing new dug-out boats to certain ferries in the district.

XXII. Read correspondence ending with Arkalgud Taluk Amildar's report No. 12—61, dated 5th July 1906, submitting the resolutions of the Arkalgud Taluk Board and the Municipal Board in the matter of the construction of an in-patient's ward to the Local Fund Dispensary at Arkalgud.

Resolution.—Resolved that as there is no provision in this year's District Fund Budget to provide the District Fund quota of Rs. 1,035, the records may be returned to the Amildar for encouraging a higher offer from Ramasami Chetty and other well-to-do persons of Arkalgud.

XXIII. (1) Read the list of District Fund incomplete works under (A) Public Works for the year 1905-06.

Resolution.—Resolved that as there is already a sante at Bagur, the necessity for another sante so close as at Kundur (*viz.*, only three miles distant), is not made out, and as there are no houses, or, other buildings at Chamarajendrapura (which is only two miles from Bagur), it does not appear necessary to have a sante there.

XXVII. Read Treasury Assistant Commissioner's yadi No. 36—135, dated 9th July 1906, submitting the report of the Alur Deputy Amildar, together with the resolution of the Alur Taluk Board, recommending the sanction of the revised estimate for Rs. 403 (original estimate

Resolution.—Resolved that as Rs. 200 only has been provided for this work in the current year's budget and that the provision of Rs. 100 proposed to be appropriated from the provision for improving the Gangur well deferred, a total amount of Rs. 300 is available. Hence the estimate has to be returned for reduction to that amount.

XXIX. Read Subject No. XVIII of the District Board Proceedings dated 12th May 1906, in the matter of starting an Industrial and Agricultural Association at District Head-quarters, etc.

XXXI. Read Treasury Assistant Commissioner's yadi No. 50—194, dated 17th July 1906, submitting an estimate for sinking a trial well for Rs. 20 at Grama for the use of the Holiyars.

Resolution.—Resolved that the estimate be approved and that the cost be met by re-appropriation out of Rs. 75 provided under the head "Repairing the roads in Grama Union" under Public Works II. Repairs in the current year's District Fund Budget.

Resolution.—Recorded.

2. Bead General and Revenue Secretary's docket No. 10720-1—L. B. 439-05-1, dated 17th April 1906, calling for opinion regarding the constitution of villages consisting of more than 300 houses or 1,000 people, into Unions.

Resolution.—The Board are of opinion that as a general rule, the principle that villages consisting of more than 1,000 people or 300 houses should be formed into Unions may be adopted. Important villages on the road side and in the malnad though not coming up to the above standard may be treated as special cases.

3. Read Government Proceedings No. 12834-5—Med. 283-05-2, dated 16th June 1906, regarding the construction of a Dispensary building at Kumsi.

Resolved that the growing importance of Kumsi on account of Manganese industry carried on in its neighbourhood requires that Dispensary building should be constructed there at once. The Dispensary is at present located in a room in the Sub-Taluk Cutcherry building and is considered as unsuitable. The cost of the building without quarters for the Hospital Assistant and midwife is estimated at about Rs. 8,500. If the building is undertaken at once, the District Fund quota of the cost may be met out of the closing balance of the District Board or from the provision of Rs. 3,175 that has already been made for a building at Siralkoppa which may wait till next year.

Mr. Bhima Rao and other members are of opinion that until a better building is provided, the Female Dispensary at Shimoga should continue in the Petta as it is very convenient for women and children residing in the town. The removal of the Female Dispensary to the men's hospital does not commend itself to the members. REVENUE COMMISSIONER.

Circular No. 2521-8, *dated Bangalore*, 4*th September* 1906.

1. The question of defining the position and responsibilities of Taluk Sheristadars has for sometime past engaged the attention of the Revenue Commissioner.

2. The duties of the Taluk Sheristadar in matters other than Treasury work not having been clearly defined, neither the Taluk Sheristadar nor the Amildar realises that the former is the chief assistant to the latter in office work and it is becoming more and more difficult to fix the responsibility for delay in the disposal of work and submission of reports and returns in the Taluk Cutcherry. The Revenue Commissioner resolves to issue the following rules under Section 12, Land Revenue Code, and trusts that Deputy Commissioners and Divisional Assistant Commissioners will see that they are properly enforced.

POSITION AND RESPONSIBILITIES OF TALUK SHERISTADARS.

(*a*) Next to the Amildar the chief Revenue officer in the Taluk, is the Taluk Sheristadar. He is primarily responsible for the examination of the village accounts as well as for the correct preparation of taluk Revenue accounts and his work in these respects should be carefully inspected and reviewed by the Assistant Commissioner in charge of the taluk and the Jamabandi Officer.

He is also responsibe for the correct preparation and punctual submission of all periodical returns which have to be submitted to the Deputy and Assistant Commissioners and must see that the several abstracts and registers are properly maintained by the gumastas, the necessary entries being made from time to time with reference to the village accounts.

(*b*) The Taluk record-keeper should work under the direct orders of the Taluk Sheristadar and the latter, subject to the control of the Amildar, will be held responsible for the state of the records.

(*c*) A calendar of reports and returns due from the Amildar to higher officers and showing due dates and the clerks responsible for their preparation, should be prepared on card board by the Taluk Sheristadar and hung up in the rooms of the Amildar and Taluk Sheristadar. It will be the duty of the Taluk Sheristadar to keep this calendar up to date.

(*d*) It is also the Taluk Sheristadar's duty to see that the village returns are received in time and to exercise a general supervision under the Amildar over the Taluk establishment. FINANCIAL DEPARTMENT.

Circular Memo 2085—339, *dated Bangalore,* 9—11*th October* 1906.

The Comptroller has the honor to state that the books of this office for 1905-06 will remain open for adjustments and transfers only up to 15th November 1906, and to request that the Deputy Commissioners of Districts and Heads of Departments will be so good as to intimate to this office through the respective District Treasuries all corrections and adjustments which they may have to propose in the Revenue Accounts of that year by the 31st October 1906, after which no applications for corrections or adjustments will be attended to.

Circular No. 2086—*T. A. D. Gr.* I. 489, *dated* 15—20*th October* 1906.

To—All Disbursing Officers.

Instances have come to notice of undisbursed amounts of pay of establishments which ought to have been refunded to the Treasury by deduction in the next bill, as laid down in Article 63 of the Civil Account Code, Volume I, having been retained in the hands of the drawing officers for months together and of notices published in the *Mysore Gazette* to the effect that should the party fail to appear to receive payment within a specified date, the amount will be refunded to Treasury. The Comptroller has therefore the honor to observe that such a procedure is highly objectionable and is opposed to Article 5 of the Civil Account Code under which claims which have been held in abeyance for periods exactly six months to two years cannot be paid without the sanction of this office and the Government respectively. Undisbursed amounts should, without exception, be refunded by deduction from the next bill and may be redrawn as occasion arises under the rules laid down in Article 65.

N. G. Basu,
Comptroller.

FINANCIAL DEPARTMENT.

Circular Memo 2085—339, *dated Bangalore,* 9—11*th October* 1906.

The Comptroller has the honor to state that the books of this office for 1905-06 will remain open for adjustments and transfers only up to 15th November 1906, and to request that the Deputy Commissioners of Districts and Heads of Departments will be so good as to intimate to this office through the respective District Treasuries all corrections and adjustments which they may have to propose in the Revenue Accounts of that year by the 31st October 1906, after which no applications for corrections or adjustments will be attended to.

Circular No. 2086—*T. A. D. Gr.* I. 489, *dated* 15—20*th October* 1906.

To—All Disbursing Officers.

Instances have come to notice of undisbursed amounts of pay of establishments which ought to have been refunded to the Treasury by deduction in the next bill, as laid down in Article 63 of the Civil Account Code, Volume I, having been retained in the hands of the drawing officers for months together and of notices published in the *Mysore Gazette* to the effect that should the party fail to appear to receive payment within a specified date, the amount will be refunded to Treasury. The Comptroller has therefore the honor to observe that such a procedure is highly objectionable and is opposed to Article 5 of the Civil Account Code under which claims which have been held in abeyance for periods exactly six months to two years cannot be paid without the sanction of this office and the Government respectively. Undisbursed amounts should, without exception, be refunded by deduction from the next bill and may be redrawn as occasion arises under the rules laid down in Article 65.

N. G. Basu,
Comptroller.

REVENUE COMMISSIONER.

Circular Memo No. 3948-56, *dated* 12*th October* 1906.

Under Rule 98 of the Land Revenue Rules, a sale for arrears of revenue is conducted by the shekdar if the estimated value of movable or immovable property does not exceed Rs. 100, but no rules are laid down as to how and by whom the property is to be valued.

Further the forms of proclamation of sale (*vide* Appendix 3 of the Land Revenue Rules) do not give the estimated value of the property except in the case of buildings, the present practice being to enter the estimated value in the declaration of forfeiture.

2. In the Dasara Representative Assembly Subject No. 70 of 1905, it has been represented that lands forfeited for arrears of revenue are often purposely undervalued by the village officials in order to enable the shekdars to hold the sale. As such undervaluation occasionally takes place leading to fraudulent practices and consequent violation of the sales, the Revenue Commissioner lays down the following procedure in valuing the property proposed to be sold for arrears of revenue :—

"The value of the property about to be sold for revenue arrears should ordinarily be estimated by the shekdar after consulting a panchayat, of which the patel and shanbhog of the village shall form members. The panchayat must be instructed to fix the value of the land with reference to the price fetched by similar land in the neighbourhood. The patel and shanbhog shall be responsible for omission to report any transactions which might to their knowledge have taken place as regards any of the items of property in question. The ordinary practice of valuing the property at just above the arrears or the amount of assessment should be discontinued. The trees, wells, etc., of any value on the property should also be correctly described as far as possible together with their estimated market value."

Circular No. 4167-74—3, *dated* 26*th October* 1906.

Rule 85 of the Land Revenue Rules lays down instructions for the proper inspection and maintenance of boundary marks. That these instructions have not been properly enforced is clear from the facts brought to notice in para 2 of Government Proceedings No. R. 2656-67—L. S. 53-05, dated 30th August 1906, reviewing the annual progress report of the Revenue Survey Department. The rule itself was promulgated after careful consideration and is not difficult of execution.

The Revenue Commissioner is led to infer that the village officers and shekdars who are primarily responsible for the inspection and preservation of boundary marks, have not been kept to their duty and properly punished for their neglect by the higher Revenue officers. He therefore directs that the Deputy Commissioners of Districts should, in their Jamabandi and Revenue Administration Reports, bring to notice the work of each Amildar in this branch and recommend, if necessary, the stoppage of promotion to the Amildars who are slack in the performance of this work. A memo of instructions drawn up for the guidance of subordinate officers in carrying out the provisions of Rule 85, is appended.

Memorandum of instructions re *the preservation of boundary marks in Survey numbers, circulated with Circular No.* 4167-74, *dated* 26*th October* 1906.

It is essential for the proper safeguard of the rights of holders of Survey numbers that their Survey marks should be properly maintained. The rules on the subject are quite sufficient for the purpose provided they are systematically and intelligently carried out. A few suggestions are here given for the guidance of subordinate Revenue officers to secure the efficient discharge of this most important work.

2. Rule 85 of the Land Revenue Rules (Chapter XIII) provides for a twofold inspection of Survey marks :—(a) the yearly inspection of every Survey number by the village officers [clauses (*a*) and (*c*)] and (*b*) a test inspection to be systematically carried out in a period of four years for every hobli of a taluk by the shekdar and a few taluk officials deputed for the purpose [clauses (*c*), (*d*) and (*e*)]. In both cases provision exists for the checking of this work by higher officers [clauses (*f*) and (*g*)].

3. (*a*) *Yearly inspection by village officers* (*Pahani*).—

(i) It is highly desirable that the village officers should begin the Pahani as early as possible each year so as to give sufficient time to defaulting panchayats for supplying deficiencies before their second inspection begins in accordance with clause (*b*).

(ii) This interval should as far as possible coincide with the period before harvest commences. This will generally be before the south-west monsoon closes. The raiyats will have leisure and the work of repair will be easy. It is very important that the officers should see that the work is properly done so that the bandhs may stand for some years without needing repairs.

(iii) The strict enforcement of the rule prohibiting cultivation of margins of bandhs and Survey numbers (Rules 83 and 84 of the Land Revenue Rules) is very necessary to the preservation of Survey marks, especially in wet and garden lands.

(iv) Trees and spreading shrubs must not be allowed to be planted on or in close proximity to a Survey mark so as to hide or damage it.

(v) The marks in village communal lands should be got repaired by the villagers in the same way and at the same time as those in occupied lands are.

(vi) In the case of bandhs on waste lands a fourth may be taken in hand for repair each year by the shekdar and the patel. The kulvadis and talavars may be employed in setting these right in preference to others.

(vii) Survey marks near the village site and tanks should receive the special attention of the village officers.

4. (*b*) *Test inspection by shekdars and taluk officials* [*Rule* 85, *clauses* (*c*), (*d*) *and* (*e*)].—This systematic test inspection is of supreme importance as it is only by this that the officers of Government have an opportunity of verifying the existence in tact of each boundary mark and stone and the Amildars and Deputy Amildars should carefully enforce the provisions of these clauses.

(i) As the number of villages in each hobli has been increased and as the shekdar will have to attend to his ordinary duties in addition to this work, it is very desirable that at least two taluk officials should be deputed to a hobli, besides the shekdar and that each should have an equal share of the work allotted to him.

(ii) In this arrangement the shekdar being the local executive officer, may be given distant villages in the hobli, the taluk officials taking comparatively nearer ones.

(iii) A register should be opened in the accompanying form and in the beginning of the year a programme should be drawn up allotting the work of inspecting the section for the year.

(iv) The Amildar must give sufficient time to the official deputed for the inspection to ensure his doing it properly. Thus alone can good work be expected and bad work punished. The Amildar will so arrage to depute the officials that the office work may not suffer by the absence of too many officials at the same time. It is important that the inspecting officials should not take the shekdar of the hobli with them as it will interfere with his own share of work.

(v) The following procedure will be found to facilitate the inspection work without fatiguing the official unduly. Getting together the village officers and the raiyats that may be available, the official should proceed from field to field with the village map and the Pahani register in hand and at each field ask individuals, preferably not the owner, to go and stand where each mark has to be according to the map. Thus he will have an idea of the boundaries of the field. He will ascertain in what state each mark is and note in his diary (to be kept for the purpose in the form annexed hereto (marked B). He should, in addition), enter the remarks in the Pahani register as per Rule 85 (*c*) with the assistance of this diary. The official should remember that these are merely hints and do in no way stand in the way of his adopting any equally efficient method of procedure or diminish his responsibility for taking every precaution necessary to securing the accuracy of his inspection.

(vi) The official concerned should submit the diary for each village as soon as finished to the Amildar, who will see that it is in proper form and take suitable action for the supply and repair of the marks which are missing or out of order before the end of the year or the ordinary Pahani inspection of next year. These forms should be carefully preserved villagewar till the whole test inspection is completed and the officials should be made to understand that they will be held liable for errors and omissions detected at the time of the usual Jamabandi and other inspection and the next test inspection.

(vii) The Amildar should personally attend to the distribution of this work among the taluk officials and shekdars, the Head Gumasta being responsible for keeping the lists correctly maintained.

(viii) When inspecting Taluk Cutcherries or conducting Jamabandi or whenever possible, Assistant Commissioners and Deputy Commissioners should see that the above rules are observed, that the registers prescribed above are duly maintained and that the work was properly distributed and correctly discharged by the several officials.

5. By seeing that this twofold inspection is rigorously carried out and themselves checking the same in the manner laid down in clauses (*f*) and (*g*) of Rule 85, the higher Revenue officers would be doing everything in their power to fulfil the object of Government in laying down these rules.

It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

BANGALORE, THURSDAY, NOVEMBER 8, 1906.

Notifications by Government of India, Resident, Chief Court, &c.

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE.

CIVIL SIDE.

Rule of Practice No. 129, *dated* 22*nd October* 1906.

The Chief Court issues the following Rules for regulating the practice of Civil Courts in the matter of receipt and payment of money in Courts. The Rules shall come into force from 1st December 1906.

1. The sums received in the Civil Courts may be divided into three classes :—
   (*a*) Sums received in satisfaction of decrees, sale proceeds of intestate property and security amounts and generally all amounts to be accounted for in detail as Civil Court deposits.
   (*b*) Batta to witnesses, postage, diet money to prisoners, copyists' fees, etc.
   (*c*) Stamp duty and penalty levied on insufficiently stamped documents.

Procedure in regard to receipt and payment of the items under class (*a*).

2. When a party brings money into Court for deposit, the Nazir of the Court shall issue a receipt order under his own signature authorising the Treasury to receive the money in deposit, and stating clearly the nature of the deposit, the name of the party, the number of the case and the amount tendered.

3. On return of the receipt order with Treasury acknowledgment, the Nazir shall credit the amount in the deposit register under the initials of the Judge but not in the Cash Book, giving a receipt for the money received.

4. Sums received from Central or Deputy Nazir or Process Servers shall also be dealt with in the same manner as described in Rules II and III.

5. When money is received by Postal money orders or by currency notes enclosed in insured or registered covers from judgment-debtors, or from other Courts, the amounts shall be credited at once in the Court cash book under the initials of the presiding Judge before the acknowledgment for receipt of the money or cover containing the currency notes is signed by him and the amount should be at once remitted to the Treasury with a receipt order signed by the presiding Judge. On return of the receipt order with the Treasury acknowledgment, the amount shall be credited in the Deposit Register and debited in the Cash Book as remitted to Treasury.

Note.—The presiding Judge should satisfy himself that such amounts have been received by the Treasury and brought on the Court Deposit Register.

6. Payments to decree-holder and others shall be made on cheques, which should state the amount to be paid, the name of the payee and the number of the receipt order and suit to which it relates. The amount so paid should be debited at once in the *Deposit* Register but not in the *Cash* Book. The presiding Judge, when signing the cheque, should also initial the entry of payment in the Deposit Register. It should be distinctly understood that the Judge is responsible for drawing cheques in favor of the rightful parties.

Note.—A separate cheque should issue for each individual deposit or part thereof, and should be noted against the original item of credit.

Procedure in regard to receipt and payment of items under class (*b*).

7. Petty items tendered by parties on account of batta to witnesses, postage, diet money to Civil debtors, copyist's fee, etc., shall be received in cash by the Court Nazir and credited in the cash book. These sums may be retained in the hands of the Nazir, but any amount in excess of his security amount shall be remitted to Treasury with a single receipt order without details, to be credited to a separate head "Personal Deposit Account." The receipt order should be signed by the Judge.

8. These sums shall be paid by him in cash to the parties concerned and charged off in the Cash Book.

9. When money is required out of personal deposit account for payment, it shall be drawn on cheques signed by the Judge made payable only to an officer of the Court.

Note.—Separate form of cheque distinguishable from the other cheques should be adopted for the personal deposit account.

10. These sums remitted to Treasury for credit to personal deposit account and withdrawn therefrom shall be shown in a separate column in the Cash Book.

Note.—The presiding Judge should see that these items (*i.e.*, sums remitted to Treasury and withdrawn) have been duly recorded in the pass book by the Treasury.

Procedure in regard to receipt and payment of items under class (*c*).

11. Stamp duties and penalties levied on insufficiently stamped documents and other moneys intended for final credit to Government shall be entered in a Remittance Register at the time of receipt under the initials of the Judge and remitted to the Treasury on the same or following day. These items shall also be credited and debited in the Cash Book, the entry in the Remittance Register being quoted.

Note.—The Judge should satisfy himself that the sums so realized have been duly remitted to Treasury and not retained in the hands of the Nazir.

(a) Cash Book (Register No. X.)
(b) Deposit Register (Register No. XI.)
(c) Ledger (Register No. XII.)
(d) Register of refund orders.
(e) Books of Receipt orders—
  (1) General Deposit Account.
  (2) Personal Deposit Account.
(f) Remittance Register.
(g) Cheque Book—
  (1) General Deposit Account.
  (2) Personal Deposit Account.

The Cash Book.—This is a register in which all receipts or payments in cash at the Court are entered as soon as the transactions take place.

All moneys actually received in the Court and not paid direct into the Treasury by the person tendering the money, including cash drawn from the Treasury by means of cheques and all payments made in cash are entered.

The credit and debit sides of the Cash Book are provided with necessary columns. On the receipt side six columns will be opened for entering money withdrawn from the Treasury and money received from the parties classified into five classes marked A, B, C, D and E. On the payment side are also seven columns, five for showing payments made out of the money received from the parties or withdrawn from the Treasury classified into five classes as on the receipt side, and two for showing money sent to the Treasury for deposit.

To post the Cash Book.—All sums received in cash including those not paid direct into the Treasury by the person tendering it are entered in the appropriate columns A, B, C, D and E then and there. If any money has been withdrawn from the Treasury out of the personal deposit account, the amount withdrawn is entered in the column "Receipts from the Treasury." All payments in cash, including sums sent to the Treasury for credit to Government as revenue, are similarly entered on the debit side of the Cash Book. Sums remitted to the Treasury for credit as deposit are entered in the columns "Payments into the Treasury on account of general or personal deposit account" as the case may be.

The Cash Book will be closed daily as stated in Rule XIV.

The Deposit Register.—This is a register in which all sums, whether paid into Court or into the Treasury, which should be accounted for in detail as Civil Courts Deposits (Rule I (a)) and which are not revenue are entered. All sums paid direct into the Treasury by the person tendering the money and those sent by the Court itself for deposit are entered in this register if the deposits relate to the general deposit account. Every entry of credit in this

register is attested by the presiding Judge and every payment by means of a cheque is noted in this register against the credit item to which it relates and is also initialled by the Judge.

Note.—Sums sent by Courts for credit to personal deposit account will not be entered in this register but only in the Cash Book under the column "Payment into the Treasury on account of personal deposit account."

The Ledger.—This is a register which brings together the entries in the Cash Book, the Deposit Register and the Remittance Register in one place. It is posted for each case separately and has two sides like the Cash Book, *viz.*, the credit side and the debit side. When posted, this register shows the total receipt per case, the amount paid by each party, the disbursements therefrom and the balance, if any, due to them.

Register of Refund Orders.—This is a register in which every instance in which the remission of the institution fee whether whole or in part is recorded. The columns in this register show the number of the case in which the refund was granted, the party to whom it is granted, the amount refunded and the number or date of the refund order issued.

Receipt Order Books.—These books are in counterfoil and are used for sending money to the Treasury to be kept in deposit. Corresponding with the two kinds of deposit accounts there are two kinds of these books and the difference between them consists in the books used in connection with personal deposit account having the words 'Personal Deposit Account" printed at the top of every order. Both the foil and the counterfoil of each "Order" has got space for entering the nature of the deposit, the amount of deposit, the party making the deposit, and the case number in which the amount has been produced to be placed in deposit.

Note.—Receipt orders with which sums are sent for credit to personal deposit accounts will not give details but only show the lump sum sent for credit.

Remittance Register.—This register is maintained for the purpose of entering money which is to be remitted to the Treasury for final credit to Government as revenue and has columns to show the amount remitted, the number of the case in which recovered, the party from whom recovered, the purpose for which recovered and the amount recovered and the Treasury Officer's certificate of acknowledgment.

Cheque Books.—These books are also in counterfoil. Each book has a serial number which is repeated in every cheque form contained within, and each book contains one hundred blank cheque forms which are also numbered serially Like the receipt order books, two separate cheque books are in use at the same time, the difference between them being the same as in the case of receipt orders. The cheque and its counterfoil have space enough to record the amount to be paid, the party to whom it is to be paid and the number of receipt order with which the amount was originally remitted to the Treasury for credit.

Note.—Cheques issued for withdrawing money from personal deposit account will not give particulars.

No. 4444-51, *dated* 26*th October*—1*st November* 1906.

With reference to Government Proceedings Nos. R. 1480-8—L. R. 438-05-2 and R. 3179-87—L. R. 438-05-14, dated 30th July and 13th September 1906, respectively, issuing instructions regarding the submission of confidential reports about executive and ministerial officers in districts, the Deputy Commissioners of Districts are requested to submit such reports so as to reach this office on or before the 10th of January in each year.

REVENUE ADMINISTRATION REPORTS.

Official Memorandum No. 4408—15, *dated* 29*th October* 1906.

Subject :—Revenue Administration Reports for the year 1905-06, received from the Deputy Commissioners of Districts.

The following instructions on the defects found in all the reports* are communicated to the Deputy Commissioners of Districts for information and guidance. It is hoped that in the preparation of the reports of future years, the points now noticed will be borne in mind and that there will be further improvement in the get-up of the district reports.

2. As soon as the consolidated review of this office with the orders of Government thereon reaches Deputy Commissioners of Districts, they are expected to take note of the various omissions noticed therein by the Revenue Commissioner and the Government and to supply such omissions and imperfections in the succeeding reports.

3. In preparing the report of the year, the figures in every statement should be invariably compared with the figures in the previous years and in this connection it is requested that the figures given in the current year's report for the previous year may be verified by comparison with those for the previous year given in the previous year's report, and if there is any variance, the discrepancy should be explained, as it is very necessary that the explanation of the discrepancies should be reported to Government and correct figures noted for future guidance. Similarly if the Deputy Commissioners find that the figures in the consolidated review by this office are inconsistent with the figures given in the Deputy Commissioners' reports or think that any explanations are needed for the observations contained therein or in the orders of Government, the errors should be pointed out and the necessary explanations given. In short the Administration Report should be regarded as an important record in which continuity and uniformity of figures should be preserved and not as a work which stands by itself without reference to the previous year's reports.

4. In regard to assessed waste lands available for cultivation, area cropped, etc., when the figures given in the Administration Report of the Deputy Commissioners, differ from those given by them in the Table of Agricultural Statistics under the same head, the cause of divergence should be explained in a foot-note in the Annual Report.

5. Statistics should be given in regard to lands under irrigation, the extent of lands under wells, tanks and channels as compared with the previous year, being clearly classified. At present this important item has escaped notice.

6. In the paragraph regarding the Huzur Jamabandi of taluks, the actual period taken-up for the Jamabandi of each taluk, deducting the period the officer was on other duty, should be mentioned along with the information now contained under this head.

7. The section dealing with the demand, collection, arrears of Land Revenue (including miscellaneous) Mohatarfa, Sayer and Salt and remissions, is very important and should be fully dealt with talukwar, the figures for previous and current years being given under each column, and all variations should be fully explained. The good and bad work done by each Amildar should be mentioned as also the names of the Amildars. The arrears should be classified into (1) arrears of the current year, (2) arrears of the previous year and so on for the previous three years and the arrears accumulating for more than the past three years excluding the current year should be shown separately. Arrears which are irrecoverable should be distinguished from those that are recoverable.

8. In the section dealing with the tanks, the total amount sanctioned for the year under the Minor Tanks Restoration Scheme, the number of tanks dealt with, the sum expended during the year, and the amount which lapsed at the end of the year should be mentioned. The work of each Amildar in the repair and up-keep and inspection of tanks and the personal interest taken by him should be distinctly mentioned.

* *N. B.*—Observations and instructions applicable to each district have been separately communicated to the Deputy Commissioner concerned.

9. In the section dealing with villages under Government management, the demand, collection and arrears and the cost of management should be given.

10. A paragraph should be devoted for a brief mention of the total number of alienated villages in each taluk, the number which have furnished accounts up to the current year, and the cost imposed on the others for getting the accounts in default prepared in time, as also another paragraph for the total number of Chowthaya tanks in each taluk, and the number of such tanks for which remissions have been withheld on the ground of neglect to keep the tanks in proper condition.

11. In the sections dealing with the advances of Takkavi, sinking wells and land improvement, the amount sanctioned by Government for the district for the year, the number of applications received and the amount granted to the applicants during the year, should be shown in one statement, the total amount of loans outstanding at the beginning of the year and the amount which had to be collected during the year and the amount actually collected should be shown in another statement, and in a third statement the result of both the above statements. The activity displayed by the Taluk Officers should be remarked upon. In the case of wells and land improvements, the condition of the wells already sunk with the help of loans and the condition of the lands improved from loans should be reviewed, the review extending to the wells and lands dealt with during the preceding five or ten years as far as possible. The objects for which Takkavi loans were given should also be analysed.

12. In the sections under deposits in Government Savings Banks, it should be stated whether the balance at the end of the year includes interest.

13. The number of days devoted to Criminal work by the Deputy Commissioner and each of the Assistant Commissioners during the year should be stated. If Revenue and Criminal cases were tried on the same day, the day should be classed as devoted to Revenue or Criminal as either work predominated.

14. In all districts in which there are newspapers or journals in English or the vernacular, the Deputy Commissioners are expected to make brief observations on the trend of the opinions expressed by them during the year under report, under the para "State of the Public Press."

Circular No. 4406, *dated* 31*st October* 1906.

THE REVENUE AND AGRICULTURAL GAZETTE.

1. The Amildar is informed that once in a fortnight as soon as the *Revenue and Agricultural Gazette* is issued, a copy for each of the shekdars in the taluk as also a copy for the Amildar's own use will be sent to the Amildar's address.

2. The copies should be distributed with as little delay as possible among the shekdars in the taluk and the receipts obtained from them should be filed in a separate register for inspection by the Assistant and Deputy Commissioners.

3. The shekdars should be informed that they are expected to give wide publicity to the contents of the Gazette in the several villages of their charge, soon after receipt thereof, as explained in a Circular in the Gazette.

FINANCIAL DEPARTMENT.

Circular No. 2086—*T. A. D. Gr.* I. 489, *dated* 15—20*th October* 1906.

To—All Disbursing Officers.

Instances have come to notice of undisbursed amounts of pay of establishments which ought to have been refunded to the Treasury by deduction in the next bill, as laid down in Article 63 of the Civil Account Code, Volume I, having been retained in the hands of the drawing officers for months together and of notices published in the *Mysore Gazette* to the effect that should the party fail to appear to receive payment within a specified date, the amount will be refunded to Treasury. The Comptroller has therefore the honor to observe that such a procedure is highly objectionable and is opposed to Article 5 of the Civil Account Code under which claims which have been held in abeyance for periods exactly six months to two years cannot be paid without the sanction of this office and the Government respectively. Undisbursed amounts should, without exception, be refunded by deduction from the next bill and may be redrawn as occasion arises under the rules laid down in Article 65.

N. G. BASU, *Comptroller.*

I. Read the Administration Report together with the statement of the Hassan District Board for the year 1905-06.

Resolution.—Resolved that the Report be passed and sent up to Government.

II. Read General and Revenue Secretary's docket No. 1400—L. B. (2-05)-5, dated the 15th August 1906, observing that Resolution No. V of the District Board meeting dated 12th May 1906, granting to toddy contractor Alasingrachar and Mail Tonga contractor Baba Sab, a license each, at half the existing rates for the passage of their carts through the toll gates, on the Hassan-Arsikere road, is apparently illegal as the District Board have no power to grant exemption to the toddy carts in the manner resolved, though under para 64 of the Local Board Rules, they can compound with any person on payment of a lumpsum half yearly, or, yearly, in respect of all carts and animals, etc., possessed by him, but not in respect of a fixed number of carts, etc., at half rates, and requesting that the same be corrected or that explanation may be furnished as to the necessity for a departure from the rules.

Resolution.—Resolved that it be submitted to Government that Resolution V dated 12th May 1906, was passed in the terms therein expressed to provide against fraud in the way of carts, etc., of other owners being passed through the toll-gate as those of an owner with whom the Board may have compound for a fixed amount, which would be difficult of detection, if the number of carts covered by the compounding fee be not limited.

III. Read Kanarese No. 437, dated 9th August 1906, from Messrs. Bajjanna and Mayigondadeva Mudaliar, Government contractors of Bonded Depot, requesting that needful orders may be issued to the authorities to allow free of charge carts carrying casks containing Government arrack.

Resolution.—Resolved that the contractors Messrs. Bajjanna and Mayigondadeva Mudaliar be informed that their application under clause (*e*) of para 3, of the Hassan District Notification dated 11th April 1906, concerning the Dudda toll-gate, cannot be considered in the absence of a certificate from the Head of the Excise Department.

IV. Read the following for the information of the District Board :—

(1) Government Proceedings No. 1882-3—L. B. (50-06)-2, dated 30th August 1906, noting with satisfaction that eight out of the ten well works undertaken in ten different villages have been completed at a cost of Rs. 775-3-4 out of the grant of Rs. 1,000 made from the Local Funds General.

(2) Government Proceedings No. 1884—L. B. (51-06)-2, dated 30th August 1906, communicating that the Coorg Government have sanctioned the establishment of a toll-gate about two furlongs from the Mysore frontier, on the Sanivarasanthe-Changadahalli road in North Coorg.

(3) Government Proceedings No. 2206—L. B. (337-05)-5, dated 8th September 1906, stating that absence of the Hospital Assistant from Arsikere on deputation to Gandasi, as suggested by the Arsikere Taluk Board, is undesirable and that the establishment of a Vaidyasala there is impracticable at present.

(4) Senior Surgeon and Sanitary Commissioner's docket No. 2021, dated 15th September 1906, intimating that one Venkataramier, a qualified Sanitary Inspector, is available for duty in the Arsikere Taluk and the reply of the President thereon.

(*b*) Read Memo No. 569 without date from the President of the Mysore District Board, forwarding a copy of his letter No. 181, dated 15—18th August 1906, addressed to the General and Revenue Secretary, stating that the Mysore District Board are willing to contribute ⅓rd of the cost of the above work.

(*c*) Read also Government Proceedings No. 2098-9—L. B. (54-05)-7, dated 6th September 1906, requesting the submission of a detailed report with certain particulars as to whether the Hassan District Board are willing to contribute the remaining ⅔rds of the cost of the work in question.

Resolution.—Resolved that the detailed report called for from the Arkalgud Taluk Amildar in this matter be awaited.

VI. Read Senior Surgeon's docket No. 1986, dated 12—13th instant, stating that dieting charges in a dispensary may be exceeded beyond Rs. 60, the excess being met by transfer of savings from one dispensary to another.

Resolution.—Resolved that a copy of the Senior Surgeon's docket be forwarded to the District Medical and Sanitary Officer, requesting him to issue a circular on the subject to the Sub-Assistant Surgeon at Saklespur and all the Hospital Assistants in the district.

and that Government sanction be obtained to the same.

(195-05)-12, dated 8th September 1906, sanctioning the resolution of the District Board, *viz.*, the payment of Rs. 216 to Kalluram, contractor of the well work at Rajansiriyur in the Belur Taluk, and requesting the submission of the promised further report and estimate.

Resolution.—Resolved that the joint report of the Executive Engineer and the Senior Assistant Commissioner be awaited.

IX. Read General Assistant Commissioner's yadi No. 504—583, dated 30th August 1906, submitting the resolution of the Arsikere Taluk Board, stating that since the Government Annachatram at Gandasi was transferred to Arsikere, the chattram building at Gandasi is not looked after, and suggesting that the building may be taken over under the management of the District Board.

Resolution.—Resolved that a reference be made to the Muzrai Secretary to Government to ascertain whether there is any objection to the building being taken over by the District Board for maintenance and being used as a musafirkhana, since the building is reported to be in urgent need of repairs.

X. Read vernacular correspondence ending with General Assistant Commissioner's yadi No. 642—749, dated 17th September 1906, submitting the resolutions of the Sravanabelagola Union Panchayat and that of the Channarayapatna Taluk Board, to the effect that the establishment of a Vaidyasala at Sravanabelagola is very necessary and Mr. Padmarajaiya, a member of that Taluk Board, has promised to construct a suitable building for the purpose on a site to be selected.

REVENUE COMMISSIONER.

Circular.

1. The main work of the Inspector of Cattle Diseases shall for the present be—

(*a*) visiting the various infected areas in the State and suggesting measures for prevention and cure of cattle diseases and instructing the local stockowners, raiyats and veterinarians in (i) the treatment of cattle and sheep diseases, (ii) the preventive measures to be taken during outbreak of serious cattle diseases, and (iii) the sanitation of cattle sheds:

(*b*) submitting to the Revenue Commissioner special reports on matters of importance observed by him in his tours and furnishing him with brief notes in Kanarese for publication for general information:

(*c*) making the necessary microscopic and bacteriological examination of microbic diseases:

(*d*) assisting Deputy Commissioners of Districts, when required, in organising and supervising cattle and horse shows:

(*e*) collecting information regarding special breeds of cattle and horses and giving suggestions for their improvement and drawing up instructions for the guidance of local breeders of cattle and horses:

(*f*) during his tours, he will also castrate ponies, bulls and sheep whenever possible on improved methods and try to train capable villagers in performing castration.

2. The Inspector shall be on tour for at least fifteen days every month (and for a longer period when necessary) and visit the taluks in communication with the Amildars thereof. All the eight district head-quarters and large centres of cattle and ponies should be visited.

3. When the Inspector goes to any district, he will, whenever possible, see the Deputy Commissioner of the district and regulate his movements in the district in accordance with the suggestions of the Deputy Commissioner, if any, and before leaving the district report to the Deputy Commissioner the result of his inspections in the district.

4. The Inspector shall submit every month before the 10th to the Revenue Commissioner a short report of the work done by him during the previous month and a programme of his tour in the following month.

5. Amildars of taluks shall, on first information of the outbreak of cattle disease in any part of their taluk, communicate direct with the Inspector by letter or by wire as the emergency of the case may demand. The Inspector shall, if circumstances warrant it, forthwith proceed to the infected part and after doing the needful for arresting the spread of the disease, inform the Deputy Commissioner of the district of the work done by him. Whenever he may think that his personal visit is unnecessary or he is unable to go to any taluk or village, he shall send the Amildar, for the guidance of the villagers, a few plain instructions as to what should be done for relieving the sick cattle and to arrest the course of the epidemic. Whenever more than one taluk or district require the services of the Inspector simultaneously, the considerations that should decide the choice of the Inspector shall ordinarily be the comparative numerical strength of the cattle or horses affected and the extent of damage likely to be caused.

6. In normal times, when the Inspector visits a taluk or village, he will, with the aid of local Revenue officials, assemble the raiyats in a common place and explain to them in the vernacular the more important of the cattle diseases and the methods to be pursued for their treatment and the precautions to be taken in improving the breed, erecting and managing cattle-sheds, etc. A brief resume of these lectures shall be submitted from time to time as soon as they are delivered, to the Revenue Commissioner, who will order their publication and distribution in such form as may be suitable.

7. The Inspector shall maintain a register of places visited, the condition of cattle, etc., and whenever he visits a place more than once, he should observe and note how far the instructions given by him in his previous visit have been given effect to.

8. The Inspector will be supplied with a sufficient supply of medicines required for treatment of the more serious cattle diseases and permitted to indent for a year's supply of ordinary medicines through the Medical Department for issue to local salustries and others through the Taluk Dispensary or native druggists whenever possible at cost price.

9. When cattle or horse shows are held in any district, on receipt of intimation from the Deputy Commissioner of the district the Inspector shall, as a rule, unless prevented by an outbreak of cattle disease in any other district, proceed to the spot and give all the necessary aid to the Deputy Commissioner in organising and conducting the show.

No. 4782, *dated* 8—9*th November* 1906.

Under Article 177 of the Mysore Service Regulations, Mr. C. S. Kuppusawmy Iyengar, Amildar of the Anekal Taluk, is granted privilege leave of absence for ten days with effect from the 15th instant, or from date of availment.

2. The Sheristadar of the taluk will be in charge of the current duties of the Amildar during the absence of Mr. Kuppusawmy Iyengar, on leave or until further orders.

Resolution—Recorded.

2. Read return of patients treated at the Hindu Vaidyasalas of Chikmagalur, Tarikere and Birur for the month of July 1906. The number of patients treated were 915, 1,031 and 1,007, while those for the same period of the previous year were 1,674, 1,450 and nil, respectively.

Resolution.—Recorded.

3. The following Government Orders and other papers were read and recorded :—

(1) Government Proceedings No. 9267-308—L. B. (159-05)-85, dated 9th March 1906, reviewing the District Fund Administration Reports and Accounts for the year 1904-05.

(2) Government Order No. 12465-6—L. B. (383-05)-4, dated 4th June 1906, approving of the explanation that the figures given by the Medical Department being adopted under the head "III Hospitals and Dispensaries" in the District Fund budget for 1906-07 as per Government Order No. 5040-9—L. B. (214-05)-2, dated the 15th November 1905.

(3) Government Order No. 194-5—L. B. (400-05)-2, dated 6th July 1906, communicating their inability to transfer any District Fund road for maintenance from the Provincial Funds, especially as the Shimoga-Yedahalli road, Chikmagalur-Yedahalli road and the Bababudan Hill road are branch roads which should be maintained from the District Funds.

(4) Government Order No. 148-50—L. B. (418-05)-3, dated 7th July 1906, recording and communicating to the member who mooted the subject that in the opinion of the District Board a foot bridge across the Hemavati near Phalguni in the Mudgere Taluk cannot now be undertaken for want of funds.

(5) Government Proceedings No. 674-88—Med. (312-05)-2, dated the 21st May 1906, approving the proposal of the Comptroller that he would transfer the amount required for the repairs and construction of dispensaries to the Medical Department from the funds of the District and Municipal Boards and thus obviate the inequality caused under the present arrangement, etc.

(6) Government Order No. 11888—L. B. (69-05)-7, dated the 19th May 1906, stating that Government consider that an additional musafirkhana at Santaveri is unnecessary, as there is already a third class musafirkhana besides a travellers' bungalow at the place and that a musafirkhana at Sollebyle is desirable, but funds are not available. There is therefore no likelihood of the work being put in hand early unless private individuals such as local planters, etc., contribute towards the cost.

(7) Government Order No. 393-403—L. B. (494-05)-2, dated 14th July 1906, issuing instructions regarding the sanctioning of appropriation of funds from one minor head to another under the same major head of the District Fund budget.

(8) Government Order No. 12027-40—Med. (181-05)-4, dated 23rd May 1906, issuing re-revised forms of mortuary returns.

(9) Government Order No. 691-702—Med. (115-05)-8, dated 21st July 1906, directing that Parsi, Sikhs, Brahmos, Jews, Japanese and Burmese alone should in future be shown in the mortuary return.

(10) Government Order No. 1953-4—L. B. (71-05)-3, dated the 6th August 1906, stating that the Secretary to Government in the Muzrai Department, who was consulted, informs that it is not possible to provide funds for the construction of a musafirkhana at the Bababudan Hills.

(11) Senior Surgeon's docket No. 1746, dated 31st August 1906, forwarding for information copy of an order issued by him to the Hospital Assistant at Kadur to visit Devanur and Yellambalse each once a week on Mondays and Wednesdays respectively to render medical aid to the people there.

(12) Senior Surgeon's docket No. 1839, dated 6th September 1906, forwarding for information copy of an order directing the Hospital Assistant at Ajjampur to visit Sivane on every Friday to render medical aid there.

(13) Government Order No. 2196-203—L. B. (28-06)-3, dated the 8th September 1906, directing that only such of the works as are budgetted for should be sanctioned in future, and stating that works which are not thus sanctioned are excluded from the statement of sanctions in future.

4. Read Divisional Assistant Commissioner's yadi No. 947, dated 22nd May 1906, forwarding the proposal of the Tarikere Taluk Board to transfer the cattle-pound at Bettathavarekere to Koranahalli as this place is more convenient for the people of the surrounding villages for driving cattle to the pound early.

Also Secretary's Official Memorandum No. 1570—L. B. (48-06)-2, dated 16th August 1906, forwarding for disposal a petition dated 2nd August 1906, from Nanjappa and others of the Koranahalli village, Tarikere Taluk, praying that the cattle-pound at Bettathavarekere should not be transferred to any other place as represented by the patel of the village who is interested in the shifting.

Resolution.—The Board is of opinion that the cattle-pound at Bettathavarekere may be transferred to Koranahalli tentatively for one year and its permanent location there will be considered at the end of that period on receipt of further report from the Divisional Assistant Commissioners.

5. Read Divisional Assistant Commissioner's yadi No. 276, dated 4th June 1906, forwarding the Koppa Amildar's report No. 1005, dated 1st June 1906, requesting confirmation to the sale of the ferry at Sita river at Hedse for the three years 1906-07, 1907-08 and 1908-09 to one Gundakal Ahmad Bheri for Rs. 3, as he is the highest bidder.

Resolved that the sale be confirmed.

6. Read Government Order No. 12547-9—Ml. (130-05)-6, dated 7th June 1906, approving of the proposal that the cost of Rs. 357 required for removing lantana in the lands lying outside the Municipal limits at Yedahalli will be met from the provision under the head "VI Conservancy" in the ensuing year's District Fund budget and that the work will be put in hand in July next as the ground is too hard for the removal of lantana, with the observation that the owners of private lands should be compelled to keep them clear of lantana or other undergrowth.

Resolution.—Recorded.

7. Read Divisional Assistant Commissioner's yadi No. 284, dated 9th June 1906, forwarding the Yedahalli Deputy Amildar's No. 346, dated 5th June 1906, requesting confirmation to the sales of the ferries at Hebbe and Nandigave for the year 1906-07 to Mohadin Sab and Lakvalli Budan Bég for Rs. 7 and Rs. 6, as they were the highest bidders.

Resolved that the sales be confirmed.

8. Read Mudgere Amildar's report No. 244, dated 5th June 1906, requesting confirmation of the sale of the ferries at Anjur and Kitlegundi for the year 1906-07 to one Buden Sab for Rs. 25-4-0 and Rs. 5-2-0, respectively, as he is the highest bidder.

Resolved that the sale be confirmed.

9. Read Chikmagalur Taluk Amildar's report No. 296, dated the 28th June 1906, forwarding the resolution of the Taluk Board with regard to the taking up of the estate road opened out by Mr. C. H. Godfrey from Aldur to Wagar Estate under the management of the District Funds, and stating that the road in question is useful only to the planters and not to the general public and that the road is used by the Forest Department for carrying forest produce and that the Forest Department is not prepared to contribute anything towards the up-keep of the road and that there is no reason for the road to be maintained from District Funds.

Resolution.—The Board is of opinion that as the road is not much used by the general public, it is not prepared to take it over for maintenance.

It was further resolved that the Executive Engineer be requested to take early steps to hold a Sub-Committee at a very early date and report after investigation which of the several roads now maintained from District Funds are used purely by the planters and are not used by the public, as resolved by the Board which met in February 1906 (Subject No. XXII).

10. Read Secretary's docket No. 191—L. B. (417-05)-4, dated 9th July 1906, enquiring whether the District Board are prepared to meet the cost of a separate dispensary at Balur if one is opened there in addition to the one at Hariharpur as suggested by the Senior Surgeon.

Resolution.—At present the closing balance of the District Funds is only Rs. 3,676-8-2 instead of Rs. 7,560 which is ⅛th of the total income as prescribed by clause (c) of para 131 of the Local Boards Rules. Thus it will be seen that there are no funds at the disposal of the Board. They, therefore, resolved that the Government be again requested either to sanction the closing of the dispensary at Hariharpur and the opening of one at Balur which is very useful to the planting community as already suggested, or meet the charge of the Balur Dispensary to be newly opened from Provincial Funds.

11. Read Kadur Division Executive Engineer's memo No. 215, dated 14—16th July 1906, forwarding copy of Superintending Engineer's docket No. 3281, dated the 12th July 1906, returning the estimate amounting to Rs. 1,6 0 for opening out a foot-path from Thippanahalli and Jagar *via* Bhutangandi and Pandravalli, Chikmagalur Taluk, not sanctioned, and informing that he thinks that the foot-path is absolute waste of money, and the District Fund Board have already more roads than they can support decently and that it is much better to put this money into special repairs of District Fund roads.

Resolution.—As there is no other road to go to Pandravalli and for other villages in the Jagar valley, the Board is of opinion that it is absolutely necessary to improve the existing foot-path and accordingly resolved to address the Superintending Engineer again to sanction the estimate.

12. Read Secretary's docket No. 712—L. B. (210-05)-6, dated the 23rd July 1906, returning the vernacular papers connected with the proposal to open a road from Kuduragundi to the estate of Mr. Bolton, coffee planter, and requesting to place the subject before the District Board and submit a copy of their resolution as to whether they are willing to acquire the lands through which the road opened out by Kannur villagers now passes and to take up the road for maintenance.

(*b*) Also Yedahalli Deputy Amildar's report No. 55, dated 31st July 1906, stating that the road opened out by Kannur villagers as far as the bridge near Kuduragundi is two miles in length and that opened out by Mr. Bolton is two miles in length and that the road in front of Ananthaiya's house is a part of the road belonging to Kannur villagers.

Resolution.—The Board is of opinion that they have no objection to the lands being acquired for the road in question as the parties are willing to give them without any compensation. They regret that they are not in a position to take up and maintain it for want of funds.

13. Read Revenue Commissioner's Office memo No. 1288, dated 2nd—7th August 1906, stating that the villagers of Nagadevanahalli pray for a cattle-pound, and requesting to attend to it early.

Also Divisional Assistant Commissioner's yadi No.———dated————recommending the establishment of a cattle-pound there.

Resolution.—Upon perusing the records submitted by the Assistant Commissioner in charge of the Tarikere group of taluks, it was found very necessary to establish a cattle-pound at Nagadevanahalli and the Board therefore resolved to establish a pound at Nagadevanahalli.

14. Read correspondence ending with Executive Engineer's docket No. 266, dated the 8th September 1906, informing the President that there is only a provision of Rs. 50 in the current year's budget for supplying new jungal to the Hebbe crossing and requesting to arrange to place the balance of Rs. 418 at his disposal for the work being put in hand.

Resolution.—As per Government Order No. 7187-98—L. B. (267-05)-2, dated 10th January 1906, no additional grant can be sanctioned. The Board is therefore of opinion that the estimate be sanctioned next year if the Executive Engineer cannot provide funds for the same by reappropriation from the existing allotments in the current year's budget.

NOTICE.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

Notice is hereby given that sealed tenders will be received at the General Hospital at Mysore, up to 10 A.M. on Sunday the 16th December 1906, by the Civil Surgeon, Mysore District, for the supply by contract of all articles of diet, etc., (as per list annexed) required for the use of the inmates of the General Hospital, Mysore, and Her Highness the Maharani's Hospital from 1st January 1907 to 31st December 1907, both days inclusive.

2. No tender will be received after the date above mentioned.

3. Tenders to be superscribed separately "Tender for the supply of provisions for the General Hospital, Mysore," and "Tender for the supply of provisions for Her Highness the Maharani's Hospital, Mysore."

4. No tender will be received unless accompanied by a deposit of Rs. 400 in cash, currency notes or Government bonds for the General Hospital, and Rs. 200 for the Maharani's Hospital.

5. Tenders will be opened by the Civil Surgeon, Mysore District, at the General Hospital, Mysore, on the date and hour above named, in the presence of such tenderers as may choose to attend.

6. All tenders must specify the rates at which the articles can be supplied in pound weight or in seers per rupee as the case may be.

7. The quantities stated below are not guaranteed.

8. The Civil Surgeon does not bind himself to accept the lowest or any tender, and he may reject any tender without assigning any reason for so doing.

9. The deposit of the successful tenderer will be retained, and will be forfeited if he fails to execute the contract bond, or furnish security to the amount of Rs. 400 for the General Hospital, and Rs. 200 for the Maharani's Hospital, in cash or Government bonds within three days from the date of the acceptance of his contract being made known to him.

10. No advance of cash will be made to the contractor. Payment for the articles supplied will be made by the Civil Surgeon as soon as possible after the 5th of each month on producing the necessary accounts and vouchers.

12. This contract should not be sub-let.

13. A fine not exceeding Rs. 50 will be levied at the discretion of the Civil Surgeon for any infringement of the stipulations of the contract or for the supply of inferior articles, and if frequently violated, the contract may be cancelled and the security confiscated to the Government.

16. In case the contractor, after taking the contract, is not willing to carry out his agreement, he shall give at least a month's notice and shall forfeit the security money to Government.

17. The contractor will also be bound to make good to Government any loss which may arise from his failure or by Government having to purchase the articles in the local markets at higher rates than those contracted for.

No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

CIRCULAR MEMORANDUM.

The attention of the Deputy Commissioners of Districts is invited to Government Proceedings No. R. 7348-58—L. R. 623-03-5, dated 18th February 1905, and they are informed that printed forms of pattas (Village Form No. 11) therein referred to are now being distributed to each Deputy Commissioner by the Superintendent of the Government Press. The number of estates or holdings in each district is approximately as shown in the margin, and it is the Revenue Commissioner's desire that in course of time, every one of the holders should have a patta in the new form. To effect this object, the distribution will be spread over four years, the number of pattas which will be printed in the Government Press and distributed to the Deputy Commissioner every year, being 25 per cent of the number of holdings in the district; one-fifth of the number of pattas will be printed in book-form with 8 pages and priced at 6 pies and the remaining four-fifth in single sheet of 4 pages priced at 3 pies each.

To—The Deputy Commissioners of Districts.

It having been brought to the notice of Government at the Dasara Representative Assembly of 1906 (*vide* Subject No. 31 of the Proceedings) that extracts from Khetwar Patrik applied for under the provisions of Section 238, Civil Procedure Code, are not promptly furnished by the taluk authorities, Deputy Commissioners of Districts are requested to issue strict orders to their Amildars to give such copies with the least practicable delay. As duplicate copies of Khetwar Patrik are or ought to be kept in taluk offices, such copies should be furnished from the taluk offices direct without reference to the shanbhogs within two days of the date of application. If however khetwar is not available in the Taluk Records, it should be sent for from the shanbhog without any delay and the copy or extract made in the taluk office through ordinary copyists without intervention of the shanbhogs as it is complained that intimation of such applications to village officers led to fraudulent alienations in order to defeat execution of decrees. Should any case of delay in the grant of copies, as above, be brought to the notice of the Deputy Commissioner or other Revenue Officer and established to his satisfaction, the official responsible for the delay should be suitably punished.

OFFICIAL MEMORANDUM.

No. 6346-53, *dated* 7*th December* 1906.

To—The Deputy Commissioners of Districts.

Subject.

Land Revenue Collections in the several districts of the State during the month of May 1906.

The arrears for past years are heavy in the districts of Mysore, Hassan and Shimoga being Rs. 2,04,701, Rs. 1,43,818 and Rs. 1,06,784 respectively. The reasons for such heavy arrears should have been explained in the reviews or in the "Remarks" column of the statements. In the case of taluks which are very much behind in collections, Deputy Commissioners

or Sub-Division Officers are requested to obtain and analyse the figures for each village and ascertain the causes for such heavy balances being allowed to accrue. Similar analysis should invariably be made during the jamabandi season in detail. Where the arrears are found irrecoverable on such examination, remission statements should be ordered to be sent up without delay.

2. As regards the arrears for 1905-06, the Revenue Commissioner recognizes that, owing to abnormal seasonal conditions in Kolar District and parts of Tumkur, Bangalore, Shimoga and Mysore Districts, remissions or postponements of revenue have had to be made, which account for a portion of the heavy balances in Kolar, Tumkur, Mysore, Hassan, Shimoga and Kadur Districts. It is however noticeable that the percentage of collections in some districts is greater than in other districts owing probably to greater attention paid to this important work. This is especially seen where the collections are examined talukwar (*vide* statement attached). The remission statements called for from the Kolar District in Government Proceedings No. R. 10878-87—Agri. 22-05-35, dated 19th February 1906, have not yet been submitted and should be expedited. Enquiry similar to that indicated in the case of the arrears of past years should be instituted in regard to arrears for 1905-06, recoverable arrears collected and remission statements submitted where the arrears are found to be irrecoverable.
